PROJECT NAME/DESCRIPTION: _____

PROPERTY ADDRESS: _____

The Financially Responsible Party hereby represents that he/she ☐ personally owns the subject property, or ☐ is an entity authorized to install and maintain facilities for provision of utility, telecommunications, video, voice or data transmission service in the public street right of way, or ☐ is a duly authorized agent of the Owner with full authority to execute the Obligation on behalf of the Owner.

The Financially Responsible Party acknowledges and agrees to pay to the City an initial deposit which shall be placed in a refundable deposit account and shall be used to defray all processing costs incurred by the City that are associated with this project. Reimbursable costs include, but are not limited to, all items within the scope of the City's adopted Cost Recovery Ordinance (*Rohnert Park Municipal Code, Chapter 3.32 - Cost Recovery—Fee and Service Charge System*) as well as the actual and administrative costs of retaining professional and technical consultant services and any services necessary to perform functions related to review and processing of the application and monitoring of the work. The rate for such services will be established in a manner consistent with existing City practices.

Financially Responsible Party acknowledges and agrees that additional deposits may be required while the application is processed, in such amounts and at such times as the City deems necessary to cover the City's incurred and projected processing costs. If the processing costs exceed or are reasonably expected to exceed the initial or existing deposit, the City may request the Financially Responsible Party to pay additional funds to maintain a deposit account balance. Financially Responsible Party shall pay all requested additional deposits within ten (10) days of the date of a written request from City. City at its sole discretion may cease permit processing and suspend further activity on a project until all processing costs have been paid in full and/or all requested deposits are made. The payment and acceptance of requested deposits does not constitute an approval of permits, entitlements or authorizations to begin work.

Financially Responsible Party agrees to be jointly and severally liable with Property Owner for payment of all fees referenced above. The sale or other disposition of the property does not relieve the Financially Responsible Party of their obligation to maintain a positive balance in the deposit account, unless the City grants prior approval. Financially Responsible Party agrees to notify City in writing prior to any change in ownership or status of any option agreements and to submit a written request for withdrawal of the application or written assumption of the obligations under this agreement signed by the new owner or his/her authorized agent.

Withdrawal or denial of application does not relieve the Financially Responsible Party of their obligation to pay for costs incurred in connection with this application. The Financially Responsible Party shall be liable for and will pay all costs incurred for the project, up through the date of the written request for application withdrawal or date of denial, whether or not such work is complete and whether or not the costs have previously been billed.

Any funds remaining in the account after all associated processing activities have been completed shall be returned to the Financially Responsible Party.

Financially Responsible Party agrees to defend, indemnify, and hold harmless the City of Rohnert Park, its agents, officers, elected officials, employees, boards, and commissions from any claim, action or proceeding brought against any of the foregoing individuals or entities, the purpose of which is to attack, set aside, void or annul any approval of the application or related decision, or the adoption of any environmental documents or negative declaration which relates to the approval. This indemnification shall include, but is not limited to, all damages, costs, expenses, attorney fees or expert witness fees that may be awarded to the prevailing party arising out of or in connection with the approval of the application or related decision, whether or not there is concurrent, passive or active negligence on the part of the City, its agents, officers, elected officials, employees, boards, and commissions. If for any reason, any portion of this indemnification is held to be void or unenforceable by a court of competent jurisdiction, the remainder of the indemnification shall remain in full force and effect.

I have read and agree with all of the above.

PART 2: Project Exemptions

- Is this a project that creates or replaces less than 10,000 square feet of impervious surface, including all project phases and off-site improvements?
☐ Yes ☐ No
- Is this project a routine maintenance activity¹ that is being conducted to maintain original line and grade, hydraulic capacity, and original purpose of facility such as resurfacing existing roads and parking lots?
☐ Yes ☐ No

¹ "Routine Maintenance Activity" includes activities such as overlays and/or resurfacing of existing roads or parking lots as well as trenching and patching activities and reroofing activities.

3. Is this project a stand-alone pedestrian pathway, trail, or off-street bike lane?

☐

Yes

☐

No

Did you answer "YES" to any of the above questions in Part 2?

☐

YES: This project will not need to incorporate permanent Storm Water BMP's as required by the NPDES MS4 permit. **Please complete the Section 4 and "Exemption Signature Section" on Page 4.**

☐

NO: Proceed with worksheet.

Part 3: Project Triggers

Projects that Trigger Requirements:

Please answer the following questions to determine whether this project requires permanent Storm Water BMP's and the submittal of a SW LIDs.

1. Does this project create or replace a combined total of 10,000 square feet or more of impervious surface including all project phases and offsite improvements?

☐

Yes

☐

No

2. Does this project create or replace a combined total or 10,000 square feet² or more of impervious street, roads, highways, or freeway construction or reconstruction? ☐ Yes ☐ No

3. Does this project create or replace a combined total of 1.0 acre of more of impervious surface including all project phases and off-site improvements? ☐ Yes ☐ No

Did you answer "YES" to any of the above questions in Part 3?

☐

YES: This project requires permanent Storm Water BMP's and the submittal of a SW LIDS. **Please complete the remainder of this worksheet and sign the "Acknowledgment Signature Section" on Page 4.**

☐

NO: This project will not need to incorporate permanent Storm Water BMP's as required by the NPDES MS4 permit. **Please complete the "Exemption Signature Section" on Page 4.**

² Impervious surface replacement, such as the reconstruction of parking lots or excavation to roadway subgrades, is not a routine maintenance activity. Reconstruction is defined as work that replaces surfaces down to the subgrade. Overlays, resurfacing, trenching, and patching are defined as maintenance activities.

Acknowledgment Signature Section:

As the property owner or developer, I understand that this project is required to implement permanent Storm Water Best Management Practices and provide a Storm Water Low Impact Development Submittal (SW LIDS) as required by the City's National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) Permit. Any unknown responses must be resolved to determine if the project is subject to these requirements.*

Date**Exemption Signature Section:**

As the property owner or developer, I understand that this project as currently designed does not require permanent Storm Water BMP's nor the submittal of a Storm Water Low Impact Development Submittal (SW LIDS) as required by the City's National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) Permit. I understand that redesign may require submittal of a new Determination Worksheet and may require permanent Storm Water BMP's.*

*Your project may still need to incorporate permanent storm water BMP's as required by CALGREEN or North Coast Regional Water Quality Control Board (NCRWQCB).

Implementation Requirements: All calculations shall be completed using the "Storm Water Calculator" available at: www.srcity.org/stormwaterLID

Hydromodification Control/100% Volume Capture: Capture (infiltration and/or reuse) of 100% of the volume of runoff generated by a 1.0" 24-hour storm event, as calculated using the "Urban Hydrology for Small Watersheds" TR-55 Manual method. 100% volume capture is the ideal condition and if achieved satisfies all requirements so that no additional treatment is required. This is a retention requirement.

Treatment Requirement: Treatment of 100% of the flow calculated using the modified Rational Method and a known intensity of 0.20 inches per hour.

Delta Volume Capture Requirement: Capture (infiltration and/or reuse) of the increase in volume of storm water due to development generated by a 1.0" 24-hour storm event, as calculated using the "Urban Hydrology for Small Watersheds" TR-55 Manual method. This is a retention requirement.

City of Rohnert Park – Development Services DEVELOPMENT ENGINEERING FEE SCHEDULE

Development Engineering Fee Schedule Table Notes

1. Cost-recovery charges include all costs to provide services or process applications/projects. Costs that may be recovered include but are not limited to: City staff time at fully-burdened hourly rates, including those of City departments other than Development Services (e.g. Fire Services, Public Works, etc.), consultant costs, legal costs, administrative costs generated by application/project, public noticing and advertisement costs, and other public agency fees.
2. An ***Acknowledgement of Reimbursement Obligation for Payment of Full Cost Recovery Fees for Application Processing and Inspection Services*** form (“Reimbursement Obligation Form”) or ***Reimbursement Agreement*** must be executed in conjunction with applications for these services and/or permits.
3. The method by which the City recovers its costs from the applicant or financially-responsible party is determined by the cost-recovery obligation form or agreement used. Typically, cost recovery is either: (a) a draw-down from a deposit, or (b) billing in arrears for costs incurred by the City to provide services. The cost recovery method and terms are stipulated in the ***Reimbursement Obligation Form, Reimbursement Agreement***, or specific terms of a development agreement or other negotiated instrument approved by City.
4. Initial deposit due for these services will be determined by the City, based on the Engineer’s Cost Estimate of improvement as provided by the applicant. The applicant-provided Engineer’s Cost Estimate is subject to review and approval by the City. The initial deposit amount due may be adjusted by the City, based on recalculations of the Engineer’s Cost Estimate approved by the City Engineer.
5. Applicant will be charged a flat fee as indicated for the service and/or permit, unless the service and/or permit is part of a more complex project with multiple/concurrent permits or entitlements in which costs for processing are recovered pursuant to an executed ***Reimbursement Obligation Form, Reimbursement Agreement***, or specific terms of a development agreement or other negotiated instrument approved by City.
6. Insurance required
7. Requires concurrent building permit application for new water meter installation
8. Transportation permit fees are determined by the State of California.
9. Added as additional flat fee to planning flat fee for this service.
10. Requires encroachment permit in addition.

City of Rohnert Park – Development Services DEVELOPMENT ENGINEERING FEE SCHEDULE

Additional Notes about Fees and Charges

Actual costs

The actual cost of City staff time is the fully-burdened hourly rate of the staff providing service, which may include but is not limited to Development Services, Public Safety, Public Works, and Administration providing review specifically for the project. Charges will be in increments of 0.25 hour.

Consultant charges may apply

In some cases, additional costs may be incurred by the City due to the necessity of using a consultant to assist Development Services with the review and processing of applications/projects. In such cases, the costs of the consultant's services will be passed through to the applicant, with an Administrative Fee in the amount of 7% of the consultant invoice cost, unless a different rate is stipulated for those services by a Reimbursement Agreement or Development Agreement.

Concurrent / multiple applications

When two or more applications are filed and processed concurrently, the required initial deposit will be the sum of the individual application fees and/or deposits.

Investigative fee for work started without a permit

If work on a Development Engineering project is found to have commenced without a permit, an investigation fee will be charged equal to the amount of permit fee that would apply to that project. If the project is full cost-recovery (i.e. not a flat fee project), the investigation fee will be the cost of time-and-materials required for inspection and administrative support to process the project, prior to the project coming into compliance. This investigation fee is in addition to the permit fees that will be required to bring the project into compliance.

Annual Adjustment of Flat Fees

Flat fees are automatically adjusted annually on July 1st, based on the Consumer Price Index published by the U.S. Bureau of Labor Statistics for All Urban Consumers, All Items, in the San Francisco-Oakland-San Jose Area, measured in the month of December in the calendar year that ends in the previous fiscal year.

City of Rohnert Park – Development Services DEVELOPMENT ENGINEERING FEE SCHEDULE

Annual Adjustment of Fully-Burdened Hourly Rate

Fully-burdened hourly rates are automatically adjusted annually on July 1st, based on the Consumer Price Index published by the U.S. Bureau of Labor Statistics for All Urban Consumers, All Items, in the San Francisco-Oakland-San Jose Area, measured in the month of December in the calendar year that ends in the previous fiscal year.

Services Not Listed on Development Engineering Schedule of Fees and Charges

When Development Engineering staff provide requested or necessary review, inspection or staff support services that are not included in this Development Engineering Schedule of Fees and Charges, the Development Services Director may assess and collect such fees that are reasonably necessary to defray the cost of such services. Staff time shall be charged on a fully-burdened hourly rate basis or the actual cost of outside consultant, plus 7% administrative fee, or administrative fee rate as stipulated by applicable Reimbursement Agreement or Development Agreement.
