Applicant: _____ (Sub-Contractor)

Address: _____

Applicant's Company Name: _____ Phone #: _____

Email Address: _____

*After hours or emergency number, if different: _____

Foreman or Superintendent Name: _____ Phone # _____
(or contact person)

Reason for Excavation: _____

Location of Proposed Excavation: _____

Dimensions of Proposed Excavation:

Feet Deep _____ Feet Wide _____ Feet Long _____ Number of Bores _____

A City of Watauga Hydrant Meter will be required if you are boring or filling water within the City limits.

Type of Existing Pavement: _____

Approximate Time Required to Excavate and Complete Repair of Pavement? _____

PLEASE NOTE:

1. No open street cuts unless approved by the Public Works Director; installed by City specifications.
2. **Minimum bore depth shall be thirty (30) inches.**
3. **No pneumatic implements allowed such as hole hog, bullet, missile or gopher. Push jacks, wet bore or dry auger only on city streets or right of ways.**
4. Piping layout, casing or cable layout is required showing proposed routes before a permit can be issued.
5. Any excavation or bore pits in excess of 5' (five feet) will require shoring, trench box or hydraulic jacks installed.
6. R.O.W. excavation or bore pits will require density tests or 100% sand compaction.

I, the undersigned, do hereby request a permit to excavate a public place within the City limits of the City of Watauga. I have read and do understand all applicable ordinances regulating such proposed action. **I understand that I must contact the City at (817)514-5839 or (817)514-5843 for a final inspection after the job completion.**
