Limited-Purpose Annexation – The legal process for annexing an area in order to provide only certain regulatory services for a specified period of time. Cities with populations of more than 225,000 have the authority to annex property for limited purposes. Cities may enforce planning, zoning, health and safety ordinances in areas annexed for limited purposes, but do not collect property or sales taxes or provide full municipal services. Residents may vote in city council elections and charter elections but may not vote in bond elections or be elected to a city office.

Regulatory Plan – A document adopted by the City Council, pursuant to Section 43.123 of the Texas Local Government Code, at the time an area is annexed for limited purposes, which identifies the planning, zoning, health and safety ordinances that will be enforced in the area and states the date by which the city will annex the area for full purposes.
