

3 – 5 days for Inspection

FOR OFFICE USE ONLY

DATE _____

Building Permit No.: _____

City of Poway DEVELOPMENT SERVICES DEPARTMENT

DISPOSITION OF SWIMMING POOL EXCAVATION SOILS

The purpose of this form is to identify where soils from swimming pool excavations will be deposited, and to ensure that a Grading Permit is not required. An Engineering Inspector must verify the disposition of the excavated soil and that erosion control is in place before any Building Division inspections can be scheduled. I understand I must call **(858) 668-4632** to schedule an inspection upon completion of the excavation work. _____

Initials of property owner or agent

Address of pool: _____

Property owner: _____ Phone: _____

Location of fill site: _____

Owner of fill site: _____ Phone: _____

If the fill material is to be kept onsite for a pool slide or other decorative accessories and exceeds 3 feet in vertical height, a soils compaction report/letter is required indicating the fill is placed at least to 90% relative compaction.

Quantity of the fill to be taken to the fill site: _____

Does the owner of the fill site have a grading permit? Yes ☐ No ☐

Has the property owner given written authorization for the fill material? Yes ☐ No ☐

A copy of the written authorization is to be attached prior to hauling any material to the fill site.

Pool company: _____ Phone: _____

Excavating company: _____ Phone: _____

Address: _____

The following signatures are required prior to issuance of a Building Permit for the pool.
