City of Capitola, California
Building Department

PROPERTY & PERMIT INFORMATION

- **Property Address:** _____
- **Assessor's Parcel Number (APN):** _____ **Roofing Permit Number** _____

C39 ROOFING CONTRACTOR AFFIDAVIT

I certify that I am the contractor responsible for the removal and reinstallation of the existing solar photovoltaic (PV) system in conjunction with a complete roof replacement. I certify that the solar PV system will be removed and reinstalled by the licensed C-46 or -10 contractor stated below.

- **Roofing Contractor Signature:** _____ **Date:** _____

LICENSED SOLAR PV R&R CONTRACTOR AFFIDAVIT *(To be completed by the C-46 or C-10 California Licensed Contractor responsible for the work)*

- **Contractor Company Name:** _____
- **License Class & Number:** _____
- **Worker's Compensation Carrier:** _____
- **Policy Number:** _____ **Expiration Date:** _____
- **PV System Size (kW):** _____ **PV System Permit Number** _____

I, the undersigned licensed contractor, hereby certify and affirm the following statements are true and correct under penalty of perjury under the laws of the State of California:

1. **Scope of Work:** The existing solar PV modules, racking, and associated inverters/electrical components will be safely decommissioned, removed, stored, and reinstalled upon completion of the roof replacement.
2. **Code Compliance:** All reinstallation work will comply with the California Electrical Code (CEC), California Residential Code (CRC) / California Building Code (CBC), and City of Capitola municipal ordinances per the code cycle that was in effect at the time of installation.
3. **Structural Integrity:** The roofing material will be replaced in accordance with manufacturer specifications. All PV racking standoffs and flashings will be properly integrated into the new roofing system to ensure a watertight seal. The existing structural framing is sufficient to support the dead load of the reinstalled PV system, or structural remediation will be performed as part of this scope.
4. **Electrical Safety:** All wiring, grounding, bonding, overcurrent protection devices, labeling, and placards will be inspected upon reinstallation. Any degraded, damaged, or non-compliant components will be replaced to ensure system safety and code compliance.

5 List any modifications or changes to the racking or mounting systems here:

- _____

- **Contractor Signature:** _____ **Date:** _____

- **Printed Name:** _____ **Title:** _____

*** **Form must be completed by both parties and emailed to the City of Capitola Building Dept by the PV R&R contractor.**
