FIRE SERVICES - PROJECT INFORMATION

INSTALLATION and REMODELING OF FIRE PROTECTION SYSTEM

☐Sprinkler Systems
☐Fire alarm svstem
☐ Commercial paint both systems
☐Hood & duct suppression system
☐Standpipe systems
☐Fire pump installation
☐Additional permits initiated

☐ Liquified flammable gas container
☐ Install of underground or above ground storage
☐ Removal of underground storage tanks

Applicable Codes & Standards
The installation shall comply with the adopted 2024 edition of the International Fire Code (IFC), all applicable NFPA standards as adopted by the Authority Having Jurisdiction (AHJ), all locally adopted amendments, and the manufacturer's installation requirments.

IMPORTANT INFORMATION REGARDING YOUR PERMIT/APPLICATION

* Each above ground storage tank shall be at least fifty (50) feet from each adjacent line.

* Each above ground storage tank shall be at least one hundred (100) feet from any daycare, dental office, foster home, hospital, hotel/motel, medical facility, residential dwelling unit, nursing or convalescent home, church or place of worship, public or private school, and any high occupancy building.

* No above ground storage tank may be installed or used within the City of Woodway until the permit required by this section has been issued by the City of Woodway.

* Maximum number and maximum storage: No more than two (2) above ground storage tanks may be locates on the same tract or parcel of land. For purposes of this section, multiple tracts or parcels of land under common ownership and/or control shall be considered as a single tract or parcel. No above ground storage tank shall exceed a capacity of twelve thousands (12,000) gallons.

* Spill containment: Each above ground storage tank shall be constructed of a double wall design or have a concrete containment dike enclosing the above gorund storage tank sufficient to contain within the dike the entire contents of the above gorund storage tank should spill occur. Any spill of any of the contents of any above ground storage tank and which spill is not contained within the dike shall be a violation of this section.

Scope of Work: (Provide a detailed description of the proposed installation, alteration, repair, replacement, or modification.)

Design information: (Occupancy)

Hazzard Classification:

1. The following shall accompany this permit application when applicable:

☐Shop drawings
☐Hydraulic calculations
☐Equipment data sheets
☐Manufacturere specifications
☐Fire pump curves
☐Water supply information
☐Sprinkler system calculations
☐Hood suppression system design
☐Paint booth fire protection design
☐Sequence of operation
☐Battery calculations (if applicable)
☐Underground flush documentation
☐Acceptance test procedures
☐Other:
