

ELECTRIFIED SECURITY FENCE ELIGIBILITY QUESTIONNAIRE

DATE:

APPLICANT NAME		EMAIL
JOB ADDRESS	SUITE	PHONE

Below is the Eligibility Questionnaire used to determine whether a property owner/applicant may bypass the City's Administrative Use Permit (AUP) process and install an electrified security fence, as defined by California Civil Code 835(a), with the approval of a building permit per Assembly Bill 2371 (2024).

Please complete the questionnaire below, to determine whether the proposed electrified security fence meets eligibility criteria, by circling "YES" or "NO" for each question. In order to be exempt from the requirement for an AUP, the proposed electrified security fence must meet all applicable eligibility requirements. The completed questionnaire shall be submitted to the City along with the building permit application. Please note that AB 2371 will remain in effect until January 1, 2028. If you are not able to meet the following eligibility requirements for streamlined ministerial review, the applicant shall obtain approval of an AUP. Refer to the [Administrative Use Permit Info Sheet](#) for further details.

SECTION 1. PROPERTY/USE QUALIFYING CRITERIA	COMPLIANCE (CHECK ONE):
1. Will the electrified security fence be used to protect and secure a manufacturing or industrial business located in the 5.1 IBC Multi-Use, 5.2 IBC Industrial, 5.4 General Industrial, 5.5 Medical and Science, 5.6 Business Park, or 8.1 Trails and Transit Oriented District zoning district? To check site zoning, please visit the Online GIS WebMap: https://gis.cityofirvine.orgonlineparcel/	☐ YES ☐ NO
2. Will the electrified security fencing be used to protect and secure a legally authorized business(es) that stores, parks, services, sells, or rents vehicles, vessels, equipment, materials, freight, or utility infrastructure within an outdoor lot or yard, provided that the secure area does not include existing residential, or hospitality uses?	☐ YES ☐ NO
3. Is the following statement true? The electrified security fence is not located on a property abutting a structure with a residential use, nor is it within 300 feet of a public park, child care facility, recreation center, community center, or school facility?	☐ YES ☐ NO
SECTION 2. ELECTRIFIED SECURITY FENCE STANDARDS	COMPLIANCE (CHECK ONE):
4. Is the electrified security fence powered by an electrical energizer, driven by solar-charged batteries of no more than 12 volts of direct current, with both of the following output characteristics: a. The impulse repletion rate does not exceed 1 hertz (hz); and b. The impulse duration does not exceed 10 milliseconds or 10/1000 of a second	☐ YES ☐ NO

ELECTRIFIED SECURITY FENCE ELIGIBILITY QUESTIONNAIRE

5.	Does the electrified security fence meet the standards and specifications of the International Electrotechnical Commission (IEC) for electric security fence energizers in International Standard IEC 60335, Part 2-76:2018, as amended? For more information, visit: IEC 60601-2-76:2018 IEC	☐ YES ☐ NO
6.	Is the electrified security fence identifiable by warning signs that are legible from both sides of the fence? At a minimum, the warning signs shall meet all the following criteria: a. The warning signs are placed at each gate and access point, and at intervals along the electrified security fence not exceeding 30 feet between each sign; b. The warning signs shall be placed adjacent to any other signs relating to chemical, radiological, or biological hazards; and c. The warning signs are marked with a written warning or a commonly recognized symbol of shock to warn people with pacemakers, and a written warning or commonly recognized symbol about danger or touching the electrified security fence in wet conditions.	☐ YES ☐ NO
7.	Is the following statement true? The height of the electrified security fence does not exceed 10 feet or 2 feet higher than an existing non-electrified perimeter fence or wall, whichever is greater.	☐ YES ☐ NO
8.	Will the electrified security fence be located behind a non-electrified perimeter fence or wall that is not less than 5 feet in height? NOTE: All perimeter fencing shall meet the setback and height standards within the subject zoning district.	☐ YES ☐ NO
9.	Does the electrified security fence include a device that enables first responders to deactivate it in response to an emergency, if utilized by the City or other designated first responders?	☐ YES ☐ NO

I HEREBY CERTIFY THE RESPONSES IN THIS DOCUMENT ARE TRUE AND ACCURATE.
