Shall not begin before 7:00 a.m. or continue after 7:00 p.m.

DIMENSIONS OF PREMISES BEING USED AS JUNKYARD:

Section 33-76 . REGULATIONS

Fencing:

- The portion of the premises being utilized as a junkyard shall be completely surrounded by a conventional opaque fencing material not less than six feet in height of a quality that is compatible with the zoning district where the property is located. The required fencing may be located on the property line except that fencing along the street frontage shall be set back 100 feet from the street right-of-way.

Fire and Health Hazard Prohibited:

- It shall be unlawful for any person to stack, pile or place motor vehicle parts or junk upon the premises in such a manner as to create a place for the harboring or breeding of mice, rats or vermin.

Maintenance Required:

- No person shall accumulate debris, trash or waste on the premises including rusted motor vehicle parts, which have no value.

Removal of Gasoline and Oil:

- Gasoline and oil from any motor vehicle shall be removed within 24 hours, securely stored and disposed of in an environmentally safe manner.

Removal of Rain Water:

- No car or part of car shall be kept or stacked in such a manner that rain water collects and remains in any of the parts for more than 48 hours

Signs:

- Signs, which are posted in violation of Section 33-14G, shall be presumed to have been put there by the licensee and the person who owns the premises and all persons shall be jointly and severally responsible.
