

City of Calistoga
Smoke Alarm / Carbon Monoxide Alarm Verification Form

~~~~~

**Building Permit #** \_\_\_\_\_

\_\_\_\_\_

**Project Address**

Dear Property Owner:

**The California Residential Code requires *carbon monoxide (CO) and smoke alarms* (Sections R314 and R315 respectively) to be installed in dwellings when building permits are issued, and the scope of work exceeds a total cost (or calculated valuation) of \$1,000.**

In order to FINAL your permit, it is necessary to verify the installation of these alarms within your dwelling. This form also provides the property owner the ability to self-verify to the City of Calistoga when work done does not allow convenient access to the interior of the dwelling (e.g., re-roof or other exterior work).

**By signing this document, the property owner certifies to the City of Calistoga that both Smoke and Carbon Monoxide alarms have been installed at the above-referenced project address as specified below:**

- **Smoke Alarms** are installed in accordance with the approved manufacturer's instructions in all of the following areas:
  - Each sleeping unit
  - Hallways giving access to the sleeping unit(s)
  - Each floor if multi-story
  - Basements
- **Carbon Monoxide Alarms** are installed in accordance with the approved manufacturer's instructions in all of the following areas:
  - Outside each sleeping unit
  - On every floor level of dwelling unit, including basements, outside each sleeping unit.
  - Within sleeping units where a fossil fuel burning appliance is installed (includes fireplaces)

~~~~~

Please print name, sign and date once all alarms are installed, OR to verify they are already installed
