Smoke detector/CO alarm self-verification form

Building Permit # _____

Dear Property Owner:

Per California Residential Code 314.2.2 and 315, carbon monoxide alarms (CO and smoke alarms are required when building permits are issued and the scope of work exceeds a total cost of \$1,000 or more. To grant a final approval on your permit, it is necessary to verify the installation of these alarms within your dwelling.

As of January 1, 2014, all new and replacement battery operated smoke alarms must be equipped with a non-replaceable, non-removable battery capable of powering the alarm for 10 years. All existing smoke alarms shall be replaced after 10 years from the date of manufacture or if the date of manufacture cannot be determined.

By signing this document, the property owner certifies to the City of Susanville Building Department that both smoke alarms and CO alarms have been installed on the above referenced project as specified below. Combination smoke and CO alarms are acceptable.

Smoke alarms are installed in accordance with the approved manufacturer's instructions in all of the following areas:

- A. Each sleeping unit
- B. In hallways of areas giving access to the sleeping units
- C. On each floor, if a multi-story
- D. In the basement, if a basement exists.

Carbon Monoxide alarms are installed in accordance with the approved manufacturer's instructions in all of the following areas where fossil fuel burning appliances are installed, including fireplaces.

- A. Outside of each separate dwelling unit sleeping area in the immediate vicinity of the bedroom(s);
- B. On every floor level of dwelling unit including basements
- C. Within a bedroom where a fuel-burning appliance is located in a bedroom or attached bathroom

Please fill in the permit number above and return to City of Susanville Building Department 66 N. Lassen St. Susanville, CA 96130. The form may also be provided to the Building Inspector when the final inspection is performed.
