Residential above-ground pool:	\$25.00

A Swimming Pool is: Any structure intended for swimming or recreational bathing that contains water over 24 inches deep. This includes in ground, aboveground, and on ground swimming pools, hot tubs, and spas. All swimming pools installed in the city limits of Angleton will have a minimum of a 48 inch (4 ft.) barrier around the pool or yard containing the pool. Openings in barriers shall not allow passage of a 4 inch diameter sphere. A fence with a self-latching gate is required on all pools. This permit is issued on the basis of information furnished in this application and on any submitted plans, and is subject to the provisions and requirements of the City of Angleton Code of Ordinances and any other applicable ordinances of the City, regardless of information and or plans submitted. The permit holder is required to use only subcontractors licensed and registered with the City of Angleton where such a requirement is applicable. Please Note the issuance of a pool permit does not guarantee that a pool may have an enclosure built around it, due to building lines, easements and setbacks, as recorded on the property survey.
