I acknowledge by signature and stamp below that I am the field engineer retained by the owner to ensure compliance with the grading/drainage plans as approved by the City of Alhambra Building Division for the project identified at the left. To the best of my knowledge all work within my specific area of responsibility has been completed and all rough grades (earth and/or deck) are in accordance with the current Building Code, the soils report, and the grading/drainage plans as approved by the City of Alhambra Building Division.

In addition, I have also specifically surveyed and/or otherwise verified all of the following which are applicable to this project

- 1) All rough top of wood deck elevations and/or concrete deck form work elevations are in accordance with the grading/drainage plans as approved by the City of Alhambra Building Division.
- 2) All installed drainage devices are located at the elevations indicated on the grading/drainage plans as approved by the City of Alhambra Building Division.
- 3) No contributory drainage has been blocked, temporarily or otherwise, by the existing grading/drainage work.
- 4) All other observed deficiencies in the grading/drainage work have been corrected.

I acknowledge by signature and stamp below that I am the field engineer retained by the owner to ensure compliance with the grading/drainage plans as approved by the City of Alhambra Building Division for the project identified at the left. To the best of my knowledge, all work within my specific area of responsibility has been completed and all required landscaping has been installed in accordance with the current Building Code, the soils report, and the grading/ drainage plans as approved by the City of Alhambra Building Division.

In addition, I have also specifically surveyed and/or otherwise verified all of the following which are applicable to this project:

- 1) All top of deck (wood and/or concrete) finish elevations are in accordance with the grading/drainage plans as approved by the City of Alhambra Building Division.
- 2) All drainage device elevations have been verified to ensure compliance with the plans as approved by the City of Alhambra Building Division.
- 3) All parking areas subject to detrimental ponding have been resurfaced to correct the existing condition and brought into conformance with the plans as approved by the City of Alhambra Building Division.
- 4) All roof drains deposit storm water to the locations indicated on the plans as approved by the City of Alhambra Building Division.
- 5) No contributory drainage has been blocked by the completed grading/ drainage work.
- 6) All other observed deficiencies in the grading/drainage work have been corrected.
