**Zoning Permit Application (Nonresidential)
Addendum**

ADDENDUM TO ZONING PERMIT APPLICATION

Please provide complete and accurate answers to the following questions to determine if your project conforms with the current land development ordinance standards. The accuracy of the answers is the responsibility of the applicant. If an applicant is unsure of any of the questions as they pertain to this particular project, it is strongly suggested that an engineer or other land use specialist be consulted to determine the land characteristics associated with this project.

1.	Is this property connected to the public sewer system? If no, the location of the septic system must be indicated on the survey.	YES NO
2.	Is this property connected to the public water system? If no, the location of the well must be indicated on the survey.	YES NO
3.	Has this property been subject to any planning board approval? If yes, a copy of approval resolution must be submitted.	YES NO
4.	Has this property been subject to any zoning board of adjustment approval? If yes, a copy of approval resolution must be submitted.	YES NO
5.	Does your project require the removal of 5 or more trees with a diameter of 8 inches or greater? If yes, a tree protection permit must be submitted.	YES NO
6.	Are there any steep sloped areas or hillsides that will be disturbed as part of this project? If yes, a steep slope disturbance application must be submitted.	YES NO
7.	Is your structure over 50 years old? If yes, review by the landmarks committee is needed.	YES NO
8.	Is this property located adjacent to or near any river, stream, brook or waterway or in, near or adjacent to any freshwater wetland area or wetland transition area? If yes, they must be delineated on a certified survey submitted with this application.	YES NO
9.	Are there any easements on this property? If yes, they must be indicated on a certified survey submitted with this application.	YES NO
10.	Does this project involve any fill removal or fill deposition? If yes, a soil erosion and sediment control application must be submitted.	YES NO
11.	Does this project require the construction of 500 square feet or more of new impervious area or 2,000 square feet or more of soil disturbance? If yes, a lot grading permit application must be submitted.	YES NO

I certify that the answers to the above questions and any statements made on same are true and complete to the best of my knowledge.
