16-5.9 Accessory Buildings. No accessory buildings shall be placed in any required yard except as specified hereinafter in the Schedule, Section 16-8.

- a. The aggregate ground area covered by accessory buildings in the required rear yard area shall not exceed twenty (20%) percent of the required rear yard within any zone.
- b. Limitations. Except for farm accessory buildings no accessory building within any zone shall be more than twenty (20) feet in height or one and one-half (1.5) stories, whichever the lesser. No building permit for any accessory building shall be issued in any zone until a permit for a permitted principal structure has been issued and construction started.
 1. No accessory building within any zone shall be located within the required front yard area.
 2. On through lots (any lot running from one street to another), no accessory buildings erected in the rear yard shall be nearer the street line than the minimum distance specified for a front yard setback on that part of the street which the yard abuts.
 3. Any accessory building attached to the main building shall be considered part of the main building.
