 APPROVED BY: _____
 Glenn Christner , Code Enforcement Officer

1. You are alerted that the issuance of this permit shall not be construed as a representation that the property is suitable for construction or that approval from the D.E.C., E.P.A. or the Army Corps. Of Engineers will be forthcoming for the property.
2. Driveway- Stone base in driveways to be in place prior to construction start. Contractor or owner is responsible for keeping streets free from mud, stones and construction debris.
3. Construction Debris- All debris related to alterations, additions or new construction shall be deposited in a container and removed periodically as conditions warrant. Debris may not be burned or buried.
4. A reasonable means of egress must be provided to all floor levels of each structure.
5. This permit may be subject to requirements for making facilities accessible to and usable by handicapped people.
6. New York State Uniform Fire Prevention & Building Code applies.
7. No construction is allowed over or under utility lines, Pipeline Company transmission lines or septic systems.
8. First floor grade elevation must be a minimum of 1-1/2 feet above the crown of the road.
9. Contractors to furnish acceptable Certificate of Insurance for Worker's Compensation coverage to the Town of Alden. Owners performing construction themselves must sign an Affidavit of Exemption from showing proof of Worker's Compensation Insurance.
10. Septic systems and water wells must be inspected and approved by the Erie County Health Department (961-6800).
11. Electrical Inspection is required: call Commonwealth Electrical Inspection Service (316-7091), National Electrical Certified Inspections {716-912-3647} or Atlantic-Inland, Inc. (716) 731-4748.
12. Residential concrete floors are to be a minimum of 4" thick.
13. Perimeter drains in basement with a sump hole are required.
14. The exterior of basement walls must be damp-proofed.
15. Back-flow preventers are required on all city water services as per N.Y. State Sanitary Code.
16. Copper tube solder joints for potable water to be 0.2% or less lead content.
17. Ridge and soffit vents are required on all heated buildings.
18. Roof- Asphalt shingles to be a minimum 235#, Fiberglass 215# both with 15# felt.
19. Insulation is required in hollow areas of framing, in corners and where interior portions attach to exterior walls.
20. Attached garages to have a firewall with ¾ hour rating where attached, that runs all the way up to peak on both sides or entire garage ceiling. Doors and frames in this wall to be fire rated.
21. Drainage Site Plan may be required for all buildings over 500 sq. ft.
22. Your 4" house number must be prominently displayed before a Certificate of Occupancy is issued.
23. For lots 1 acre or more: A copy of the notice of Intent (N.O.I.) and Stormwater Pollution Prevention Plan (SWPPP) as required by the New York State Department of Environmental Conservation SPDES General Permit for Stormwater Discharges from Construction Activity (Permit No. GP-02-01) must be filed with the Town prior to issuance of building permit. Per the DEC regulations, construction cannot begin until the required time period for NYS DEC review has passed:

For projects conforming to the NYS DEC's recommended standards, construction cannot begin until (5) business days from the date the NYS DEC receives a copy of the NOI; or the applicant receives an Acknowledgement Letter from the NYS DEC.

For projects that deviate from the NYS DEC's recommended standards, construction cannot begin until (60) business days from the date the NYS DEC receives a copy of the NOI; or the applicant receives an Acknowledgement Letter from the NYS DEC.
