IRRIGATION PERMIT

Date of Application: _____

Contractor: _____

Owner: _____

Business Address: _____

Address: _____

City, State, Zip: _____

City, State, Zip: _____

Phone# _____

Phone#: _____

Address of work: _____

Lot _____ Section _____ Subdivision _____

Water Source: Potable: _____ Resaca: _____

Backflow Prevention Device: RPZ _____ P/V Breaker: _____ Size: _____

Health or Non-health :(Specify chemical to be injected) _____

The plans and specifications for the above irrigation system have been reviewed by Valley Municipal Utility District No. 2 and appear to comply with the requirements of the District's Cross-Connection control Program. Valley MUD#2 reserves the right of inspection and rejection of the irrigation system after installation. An approved Backflow Prevention Assembly Test must be conducted by certified BPAT personnel and the original form given to the District. If the irrigation system has chemical injection system such as bug spray or fertilizer, it is deemed a health hazard and will need an annual BPAT. This permit does not cover the engineering design or quality of construction.

Permit must also be applied for with the Town of Rancho Viejo.

Valley Municipal Utility District No. 2

Acknowledged (Owner or Contractor)

ARTICLE VII. IRRIGATION SYSTEMS

Sec. 14-158. Compliance with article for system installation.

No person, entity, or contractor shall install, upgrade or significantly modify all or part of an irrigation system within the town without complying with this article. A significant modification or repair is defined as installing any modification on the supply, pressure or pump side of a sprinkler system, including, but not limited to, installation of an additional zone valve, relocation of zone valves or extension or relocation of the supply line. Changes to a sprinkler system on the sprinkler side of a zone valve do not require a permit.

(Ord. No. 121, § 1, 12-14-1999)

Sec. 14-159. Permit required.

Any person, entity or contractor that installs, upgrades or significantly modifies (see section 14-158) all or part of an irrigation system within the town shall, prior to such work, file an application for an irrigation system permit including detailed plans and specifications with the town and the Valley Municipal Utility District #2 showing the exact nature and location of the proposed work. The application shall also contain other information and data as may be required by the town's building official, and the application shall contain at least the following information, to-wit:

- (1) The name, address and phone number of the company doing the work;
- (2) The name, address and phone number of the person responsible for the work;
- (3) The exact location of the proposed work, including street address, lot, block and subdivision number;
- (4) The proposed date of the start of the work;
- (5) The expected length of time to complete the work;
- (6) The proposed water source for the irrigation system, be it potable, well or resaca;
- (7) The proposed location for the tie-in to the proposed water source;
- (8) If the proposed water source is the potable water supply system, the proposed method of preventing cross connection or backflow into the potable water system;
- (9) All other information that may be required by the town or the district.

(Ord. No. 121, § 2, 12-14-1999)

Sec. 14-160. Limitation on irrigation system connections.

Under no circumstances shall an irrigation system that is connected to a potable water system be connected to any other water source, nor shall any irrigation system connected to a potable water system be equipped with provisions to distribute fertilizers or other chemicals.

(Ord. No. 121, § 3, 12-14-1999)

Sec. 14-161. Restoration of disturbed streets and rights-of-way.

All streets and rights-of-way that may be disturbed by any work shall be restored to as good or in better condition than existed immediately prior to the work.

(Ord. No. 121, § 4, 12-14-1999)

Sec. 14-162. Permit issuance.

The building official, upon receiving all the information required by this article, and upon concurrence of the district, may issue an irrigation system permit for the work to be performed within the town, and all work shall be in strict compliance with the permit, the written instructions of the building official or the district, and any and all building and plumbing codes adopted by the town. There shall be a fee in an amount as determined from time to time by ordinance for each permit issued, and no permit may be good for more than 90 days, unless issued in conjunction with a construction permit, in which case the permit shall not be good for more than 30 days after the construction is completed, whichever is greater. The building official shall issue the permit provided that all of the other requirements above are met, and the building official has determined that there is no danger to the public health or safety.

(Ord. No. 121, § 5, 12-14-1999)

Sec. 14-163. Denial of permit; appeal.

If the building official denies a permit because the work will endanger the public health or safety, the applicant may appeal any ruling or denial of the building official to the board. The decision of the board may be appealed to the district court of Cameron County, Texas, if said appeal is filed within 20 days of the denial of the permit by the board.

(Ord. No. 121, § 6, 12-14-1999)

Sec. 14-164. Violation and penalty.

Any person who shall violate any of the provisions of this article, or shall fail to comply with any of the requirements thereof, shall be deemed guilty of a misdemeanor and shall be liable to a fine, and upon conviction of any such violation, shall be fined in any sum of not more than \$500.00 for each offense, and each day that such violation exists shall be considered a separate offense.

(Ord. No. 121, § 8, 12-14-1999)
