Complete the following information. Additional lines may be added, or sheets may be used. Attach relevant and/or documentation attached.

Per 2021 IBC 1704.3.1:

For each special inspection, identify whether it will be continuous, periodic or performed in accordance with the notation used in the referenced standard where the inspections are defined.

Materials, systems, components and work required: _____

Type and extent of each special inspection: _____

Type and extent for each test: _____

Seismic requirements: Where specified in Section 1705.12 or 1705.13, identify the designated seismic systems and seismic force-resisting systems that are subject to the special inspections or tests:

Wind requirements: Where specified in Section 1705.11, identify the main windforce-resisting systems and wind-resisting components that are subject to special inspections:

Per 2021 IBC 1704.2.1, we are providing documentation of the competence and relevant experience or training of the special inspectors who will perform the special inspections and tests during construction.
