Engineer: \_\_\_\_\_ Date: \_\_\_\_\_

- ☐ Record Drawings  
☐ Soils Report

The City of Menifee requires a licensed Professional Engineer / Licensed Land Surveyor to submit a **wet signed and stamped** rough grading certification prior to the issuance of a building permit.

**Project Description:** \_\_\_\_\_ **Tract No.** \_\_\_\_\_

**Project Address:** \_\_\_\_\_ **Permit No.** \_\_\_\_\_

I hereby certify the rough grading for the above referenced project in accordance with my responsibilities under California Building Code appendix Chapter 33 and City of Menifee Ordinance Chapter 8.26. I confirm that the site has been graded in accordance with the approved grading plan including location of property corners for proper building location, completion of retaining walls, location and slope ratio for all manufactured slopes, construction of earth berms, installation of all drainage devices shown on the approved grading plans, location and elevation of building pads and positive building pad drainage. The placement of the building pad and the pad elevation as shown below are in conformance with the grading plans as approved by the City of Menifee. The building pad is suitable for building construction as related to the preceding items and conforms to the standards of care for grading practices and tolerances.

A field inspection has been performed and the pad has been graded to be in conformance with the plans as follows:

| Lot No. | Approved Plan Elevation | As-built Elevation | Lot No. | Approved Plan Elevation | As-built Elevation |
|---------|-------------------------|--------------------|---------|-------------------------|--------------------|
|         |                         |                    |         |                         |                    |
|         |                         |                    |         |                         |                    |
|         |                         |                    |         |                         |                    |
|         |                         |                    |         |                         |                    |

Any deviation of more than plus or minus 0.1 ft. must be justified by the Engineer-of-Record
