DRIVEWAY CONSTRUCTION DETAILED: Please use the back of this form or attach a sketch showing the location of the proposed driveway, any drainage facilities or features which may affect or alter any drainage, details as to how the driveway entrance is to be constructed or altered, including all materials to be used, finished grade and seeding of the sides of the driveway, temporary and permanent soil erosion control measures and materials for a distance of 50 feet from the centerline of the road and any other details which the township road supervisor or township engineer may request.

For a new driveway being cut, you must place a stake at each side of the proposed driveway with your name on the post to identify to the road department the exact location. **PLEASE NOTE:** the finished grade from the centerline of the roadway to a point 50 feet on the driveway shall not exceed 1%. No new driveway profile shall exceed 15% at any point.

If, in connection with the construction or alternation of a drive, the Township Department of Public Works superintendent determines that a drainage pipe is required along the roadway, the applicant shall, at its sole cost and expense, install such drainage pipe in accordance with the specifications determined by the Township Department of Public Works Superintendent and Engineer. Such specifications shall include the composition and diameter of the drainage pipe, the base beneath and surrounding the drainage pipe, the length and angle of the drainage pipe, the material to be installed at both ends of the drainage pipe, and such other specifications as are determined by the Township Department of Public Works Superintendent and Engineer.

A duplicate of this form must be submitted to the Hunterdon County Soil Conservation District, 687 Pittstown Road, Suite #1, Frenchtown, NJ 08825. 908-788-9466. They have separate fees and/or application(s) for their review.
