

TOWN OF OYSTER BAY

OFFICE OF THE TOWN CLERK

WASTE REMOVAL PERMIT APPLICATION

Hazardous/Industrial Waste Affidavit

I understand that, in conformance with the Environmental Conservation Law and Title 6 of the official compilation of Codes Rules and Regulations of the State of New York, Part 360 (Solid Waste Management Facilities):

- A. *Hazardous Waste* shall be accepted only at facilities which have been specifically approved by the Department of Environmental Conservation for the processing or disposal of the specific waste (360.8 a 17); and
- B. No *hazardous or industrial wastes* nor material which when combined together will produce hazardous wastes, shall be disposed of in a sanitary landfill except pursuant to special operation permit authorization (360.8 b -xi).

For this purpose, hazardous waste shall mean a waste which appears on a list or satisfies the criteria promulgated under Article 27-0903 of the New York State Environmental Conservation Law and/or section 1004 of the Federal Resource Conservation and Recovery Act of 1976, as amended, which shall include but not be limited to a solid waste or combination of solid wastes, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may:

- (i) cause or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible illness; or
- (ii) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, disposed or otherwise managed.

Industrial waste as defined in Part 360 shall mean "wastes in liquid, semi-solid or solid form that result from industrial or commercial processes, including but not limited to factories, processing plants, and repair and cleaning establishments, which wastes include but are not limited to sludges, oils, solvents, spent chemicals and acids." "Sludges" means the accumulated semisolid suspension of settled solids deposited from waste waters or other fluids.
