CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

Camp Able at Coronado is an inclusive aquatics summer day camp that offers opportunities for people all ages and abilities. Camp Able has adaptive equipment to make it possible for someone with a disability to be able to get in the bay, go sailing or on a canoe ride. Take a bike ride using a wheelchair bike or participate in arts/crafts and music activities designed to meet the persons social, physical and cognitive abilities. There is not another camp in Coronado or San Diego County that accepts all ages and abilities. A camper could be totally dependent on a care provider to meet all of there needs to a person who has a learning disability. Camp Able prides it's self on being able to meet a camper right where they are. We are able to set up an activity to accommodate each and every camper need. If you are in a wheelchair, dependent on a vent to help you beath and you want to sail we can accommodate the desire to sail and safely take the camper for a sail. Camp Able at Coronado has trained staff and equipment to do so. Camp Able at Coronado is a project of the SDSU Research Foundation. The support we get is with insurance and being under the 501c3 umbrella. In order for us to operate we are responsible to raise all of the funds to needed to run the program without help from SDSU.

Question 2: How does this program/event benefit the Coronado community?

Camp Able at Coronado benefits the disabled community in Coronado. Giving them the opportunity for recreation and community. We also offer support and hope for families by being a place their camper can go to do things they never though they could because of a disability. Camp Able looks at "ABILITY" not disability. We are all inclusive and offer our program to everyone. Making it possible for a family to sign up all of their kids for camp not just the camper with a disability. Coronado has very limited opportunities for people with disabilities and Camp Able helps fill that void. Camp Able started in April of 2024, with the support of the Coronado Community Foundation, Coronado Friends of the Library, and the Coronado Library, the Exceptional Families Program- a once a month on a Saturday morning activity that the whole family no matter your ability or age can attend for free. A family can drop off, so they can have some respite time or join in the fun with the whole family. This is a free event for the Coronado Community open to all. We have done beach clean ups/made sand candles, Earth Day event, Art in Science, Fall and Winter Art studio, Holiday Party, and Story Telling events. We plan to continue this program for the community as a free event for the next year and working on extending the Exceptional Families Program to offer support during school breaks and holidays for families.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

Camp Able at Coronado is in its 44th year in Coronado. We have an experienced staff who have worked in the disabled community for over 30 years. Along with a very extensive 2-week training program each summer before camp starts to make sure the staff and volunteers know how to work with people with disabilities and know the Camp Able safety policies and procedures. Our staff is

CPR/First Aid certified, have taken lifeguard training, and are certified. Camp Able has a very low turnover rate among the staff. This gives us the opportunity to fine tune Camp Able operations and build upon our knowledge more and more each year. We pride ourselves in keeping our campers safe in all of our activities.

TITLE OF GRANT REQUEST: Camperships - 25 Coroando Residents Camp Fees

Please outline all other funding sources, including all fundraising efforts, donations, capital campaigns, and other grants.

List **all** anticipated expenditures for the project related to the grant proposal. In the total cost column, please indicate the estimated cost of the item. In the request column, indicate the amount you are requesting. This must be done for each budget item. You may request 100% of the cost for any or all items. The request column total must match the *Grant Request Amount* and the total cost must match the *Total Program Budget* amount listed on your grant application.

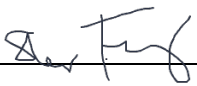

EXPENSE DESCRIPTION	TOTAL COST	REQUEST
25 Camper Fees for Coronado Residents	\$13,750	\$13,750
Total (add each column):	\$13,750	\$13,750

CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

This funding will support Cancer Cartel's ongoing mission to eliminate the financial barriers faced by individuals undergoing cancer treatment—both through direct financial relief and continued community engagement in Coronado.

We respectfully request that 60% of this mini-grant be allocated to our Warrior Grant Program, which provides unrestricted financial assistance to Cancer Warriors in the Coronado area.

These grants help cover essential, everyday expenses such as groceries, utility bills, transportation, rent, childcare, and prescriptions—costs that are often overlooked, yet critical to a patient's stability and well-being. Our streamlined application and vetting process, conducted in partnership with hospital social workers and case managers, ensures these funds are delivered directly and efficiently to those in need.

The remaining 40% of the requested funding will support the expansion of our outreach and fundraising efforts in Coronado through impactful, community-driven events. Cancer Cartel has already established a meaningful presence in the area, with three highly successful events in the past year: Fashion Funds the Fight—organized with the support of a local host committee, our inaugural Pickleball Tournament, and our Shop for a Cause initiative in partnership with local retailers and restaurants. These events have raised critical funds, fostered local business involvement, and deepened community awareness around the financial realities of a cancer diagnosis.

With a 100% pass-through model, every donor dollar raised is directed to Cancer Warriors—none to administrative overhead. Grant funding covers these costs. This dual-purpose funding approach will allow us to provide urgent, direct support to those fighting cancer in Coronado, while also growing the local momentum and visibility necessary to sustain this impact long-term.

Question 2: How does this program/event benefit the Coronado community?

This program will benefit the Coronado community in two meaningful ways: by providing immediate, direct financial assistance to local individuals battling cancer and by engaging the broader community through impactful events that raise awareness and support for those Warriors.

With 60% of the grant dedicated to our Warrior Grant Program, we will provide unrestricted funding to Coronado residents currently undergoing cancer treatment. These funds help cover essential expenses like groceries, rent, utilities, transportation, and medical needs—alleviating the day-to-day financial stress that compounds an already devastating diagnosis.

The remaining 40% of the grant will support the growth of community-based fundraising and awareness events in Coronado. Our past events: Fashion Funds the Fight, the Pickleball Tournament, and Shop for a Cause, were met with enthusiasm from local businesses, volunteers, and supporters. These events raised critical funds and created a strong sense of community ownership in our mission.

We will engage numerous volunteers from Coronado—including local youth and members of the Chamber of Commerce—to help bring these events to life again, offering opportunities for residents to contribute time, energy, and passion to a cause that impacts their neighbors. The City's support will be prominently celebrated across all marketing, signage, and outreach efforts. Our most recent event received exceptional media and print coverage, and we anticipate similar visibility this year—offering strong community engagement and recognition for all involved.

This dual investment will uplift Coronado residents in crisis while strengthening community connection and compassion.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

Cancer Cartel has successfully administered our Warrior Grant Program nationwide since our founding in 2019, distributing over \$1 million in direct financial assistance to individuals battling cancer. Our systems for vetting, approving, and issuing grants are well-established, requiring no additional resources or support to execute.

Because this is an ongoing program, no new infrastructure is needed. The only activity required is identifying Coronado-based Cancer Warriors in need, which we do through referrals from local hospital social workers and case managers. These partnerships ensure funds are distributed quickly and directly to individuals facing urgent financial hardship due to a cancer diagnosis.

In addition to administering these grants, we have successfully produced multiple fundraising and awareness events in Coronado, including Fashion Funds the Fight (with a local host committee), our inaugural Pickleball Tournament, and Shop for a Cause, which engaged local retailers and restaurants.

We have an active Coronado Ambassador team dedicated to advancing our mission locally, led by Cancer Cartel co-founder and Coronado resident Shelly Tinney-Miller. Interest in joining this team continues to grow, with many community members eager to help plan and support upcoming events.

CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

Investing in safety cheer mats is one of the most effective ways to support and strengthen the Coronado Cheer program. These mats provide critical protection, help develop skills safely, and show a strong commitment to the athletes' wellbeing, all of which contribute to the program's long-term success.

First and foremost, cheerleading involves stunts, tumbling, and high-energy routines that put athletes at risk of injury if performed on hard or unsuitable surfaces. Safety mats provide a cushioned landing area, reducing the impact of falls and lessening the risk of sprains, fractures, and concussions. By creating a safer practice and performance environment, the program can minimize injuries, allowing athletes to train more consistently and confidently without the fear of getting hurt. When athletes feel protected, they're more likely to push their skills to the next level, leading to greater progress and team success.

Additionally, having proper safety mats enhances the overall professionalism of the cheerleading program. Whether recruiting new members, gaining support from parents, or seeking sponsorships, demonstrating a commitment to safety builds trust and credibility. Parents are much more willing to allow their children to participate when they see that the program invests in proper equipment. Sponsors and school administrations are also more likely to support a team that shows responsibility and foresight in managing athlete safety.

Safety mats also improve the quality and intensity of training sessions. Coaches can introduce new skills—such as back handsprings, aerials, and basket tosses—with greater confidence when athletes are working on mats that are designed to absorb impact. This creates an environment where progress is both faster and safer. Instead of holding back due to fear of injury, athletes can focus on mastering techniques and building strength. Over time, this leads to more advanced performances, greater competition success, and a stronger team reputation.

Moreover, safety cheer mats are a smart financial investment for any program. While there is an upfront cost, investing in mats can reduce the expenses associated with injury recovery, insurance claims, and potential legal liabilities. An injury-free season is not just better for athletes' health and morale; it's better for the program's bottom line too.

Lastly, the visual aspect should not be overlooked. A practice space outfitted with clean, high-quality mats looks more professional and inviting. It sets the tone for a serious, well-organized team and instills pride among team members. Athletes tend to perform better when they feel they are part of a structured, well-supported program.

Coronado Cheer is committed to purchasing safety cheer mats as an essential step toward building a thriving cheerleading program. They protect athletes, enable safer and faster skill development, attract more participants and supporters, and project an image of professionalism and care. By investing in safety, the program sets itself up for a healthier, more successful future where athletes can reach their full potential with confidence and pride.

Question 2: How does this program/event benefit the Coronado community?

Coronado Cheer is a community-based nonprofit organization dedicated to serving children from

Pre-K through 8th grade. Through its programs, Coronado Cheer provides young athletes with a supportive environment to develop skills in cheerleading, teamwork, leadership, and personal growth. Beyond the physical skills taught, the program fosters confidence, resilience, and a strong sense of community pride among its participants.

By engaging children at an early age, Coronado Cheer helps instill values of discipline, dedication, and sportsmanship that carry over into other areas of their lives, including academics and personal relationships. The organization also emphasizes inclusivity, ensuring that children of all skill levels and backgrounds have the opportunity to participate and thrive.

Coronado Cheer's impact extends beyond its athletes. By hosting and participating in local events, performances, and parades, the program brings families and residents together, strengthening the bonds within the Coronado community. These events help create a lively, spirited atmosphere that reflects the community's values of support, teamwork, and pride.

Moreover, Coronado Cheer provides opportunities for older students and volunteers to mentor younger athletes, promoting leadership development and civic engagement. Parents also benefit from the supportive network the program fosters, creating a community within a community.

Through athletic development, personal growth, and community involvement, Coronado Cheer makes a lasting and positive impact on the youth and families of Coronado, helping to shape the next generation of leaders and citizens while reinforcing the strong sense of pride and unity that defines Coronado.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

Coronado Cheer has the proven capacity to successfully implement and execute this program. Our organization is led by a dedicated team of experienced staff and volunteers who bring extensive backgrounds in youth sports, cheerleading, and event coordination. Many of our volunteers are former athletes, parents, and community leaders who are deeply committed to providing a positive, enriching experience for every participant.

We have a strong track record of successfully running similar programs for children in grades Pre-K through 8th grade, consistently offering high-quality instruction, well-organized events, and meaningful leadership opportunities for our young athletes. Coronado Cheer has developed detailed operational plans for practices, performances, and community events, ensuring safety, consistency, and success at every level.

Additionally, Coronado Cheer has established partnerships that enhance our ability to deliver impactful programs. We proudly partner with the Islander Sports Foundation (ISF), which provides essential support and coordination with Coronado's broader youth sports network. We also work closely with Casey Popp, the head coach of Coronado High School's cheer team, ensuring strong alignment between our youth and high school programs. This relationship not only strengthens our athletes' skill development but also fosters mentorship opportunities and a clear pathway for continued involvement in cheer throughout their educational journey.

With experienced leadership, a successful history of program execution, and strong community partnerships, Coronado Cheer is fully equipped to deliver a high-quality program that benefits both its participants and the greater Coronado community.

CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

Sharp Coronado Hospital is a lifeline to the residents and visitors of Coronado, serving the people who live, work, and play in Coronado with acute, skilled nursing, intensive and emergency care. The most vital service we provide to the community is emergency care and it is often the first experience a community member has with the hospital.

Over the past 5 years, we have prioritized the expansion of these services through Coronado Hospital Foundation's Campaign for Emergency and Intensive Care. With generous support from the community and the City of Coronado, we have re-located and renovated the Intensive Care Unit (ICU) to the fourth floor, with seven private rooms that have sweeping views of Coronado, life-saving equipment and space for loved ones to visit. We have recently expanded the Emergency Department into the former footprint of the ICU, adding seven new, private rooms to the existing eight beds.

Throughout this process, the hospital identified the need to provide a higher quality of care to patients during the critical "golden hour", the first 60 minutes after the onset of stroke symptoms, when there is the greatest chance for recovery with prompt treatment.

In 2024, Sharp Coronado took the next step to elevate their stroke care by receiving accreditation as a Primary Stroke Center. This has allowed patients to receive the specialized care they need without leaving the island.

Wendy Rutherford, Manager of Stroke and Special Populations at Sharp Coronado shares, "the mission of the stroke program is to provide exceptional, person-centered, evidence-based stroke care that is accessible, compassionate, and innovative, ensuring that every individual in our community has the opportunity to thrive after stroke. I have witnessed the impact of having this service available in Coronado and it is my honor to have the ability to treat stroke patients at Sharp Coronado."

Becoming a Primary Stroke Center is a significant investment that will pay off for the community in terms of improved patient outcomes and reduced healthcare costs. The initial establishment of the Primary Stroke Center was \$850,000 for the first year and ongoing costs are estimated at \$720,000 annually.

Coronado Hospital Foundation is committed to providing \$2.3 million in philanthropic support for the first three years of the Primary Stroke Center. This funding will provide initial and ongoing education and training for staff, specialized team members including stroke nurses, on call coverage from specialty physicians, continuous investment in quality improvement programs and community outreach programs, new equipment or upgrades to existing equipment and supplies.

We have already received generous support from the community and we humbly request \$15,000 from the City of Coronado to help support this important service for our residents and visitors.

Question 2: How does this program/event benefit the Coronado community?

Stroke is the fifth leading cause of death and the leading cause of long-term disability in the United

States. Each year, more than 795,000 people experience a stroke, and nearly 137,000 people die from stroke. At Sharp Coronado, we estimate about 50 patients annually will have the ability to remain in Coronado for care, who would have otherwise been transferred off the island.

As a Primary Stroke Center, stroke patients benefit from:

- Faster access to specialized care - the ability to receive specialized care at Sharp Coronado immediately after suffering a stroke, without having to be transferred to another facility. This is important because the faster a stroke patient receives treatment, the better their chances of recovery.
- Higher quality care - care from a team of specialized health care professionals who are experts in stroke treatment. This team will develop a personalized treatment plan for each patient's individual needs.
- Improved patient outcomes - treatment at a Primary Stroke Center provides better outcomes, including lower mortality rates and less severe long-term disability.
- Reduced health care costs - reduction in health care costs by providing care in a single setting, eliminating the need for multiple transfers.
- Enhanced reputation - designation as a Primary Stroke Center enhances the hospital's reputation as a leader in stroke care.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

Sharp Coronado was accredited as an Acute Stroke Ready Hospital in 2009 and was consistently exceeding expectations. Our advanced resources and expertise helped to provide timely, high-quality care for stroke patients during the critical first hours after a stroke.

In 2021, Sharp Coronado developed a patient transfer partnership with Sharp Grossmont Hospital's Comprehensive Stroke Center to provide advanced care for our community. The achievements of the stroke program naturally evolved to Sharp Coronado Hospital seeking the next level of stroke accreditation by The Joint Commission, an independent organization that accredits health care organizations.

In early 2024, Sharp Coronado received Advanced Primary Stroke Certification. The hospital now has the specialized resources and expertise to provide comprehensive care to stroke patients from the moment they arrive at the hospital until they are discharged or, in rare cases, transferred to another facility for rehabilitation. Sharp Coronado has the ability to care for 99% of stroke patients that come through our doors and for the small percentage who require further neurological interventions, we will continue the patient transfer partnership with Sharp Grossmont.

The Joint Commission surveyor had the following positive feedback for the Sharp Coronado team during the Primary Survey:

- "Sharp Coronado has the most engaged staff I've seen in a long time".
- "It's very apparent that the Planetree [person-centered care] initiatives are embedded in the culture of the hospital".
- "This is the first time I've had an initial Primary Survey with no findings- Wow!"

TITLE OF GRANT REQUEST: Primary Stroke Center

PROGRAM BUDGET		
List all anticipated expenditures for the project related to the grant proposal. In the total cost column, please indicate the estimated cost of the item. In the request column, indicate the amount you are requesting. This must be done for each budget item. You may request 100% of the cost for any or all items. The request column total must match the <i>Grant Request Amount</i> and the total cost must match the <i>Total Program Budget</i> amount listed on your grant application.

CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

This grant will empower Coronado Junior Arts League (CJAL) to continue to enrich and diversify Coronado's arts scene through its ongoing specialized musical theater and education program for youth ages 8–16.

Our Ongoing Center of Excellence for Youth Arts:

- Award-winning professionals—including an Emmy winner, Academy of Motion Picture Arts and Sciences member, and gold album artists—lead our programs, ensuring world-class training in acting, voice, and technical production.
- Partnerships with the City of Coronado, Coronado Playhouse, and CoSA integrate our work into the broader arts ecosystem, fostering mentorship and career pathways.

Our acclaimed 2024/2025 Programs Included:

- The Wizard of Oz, Youth Edition
- Annie, Jr.
- Charlie and the Chocolate Factory, Jr.

Question 2: How does this program/event benefit the Coronado community?

Community & Economic Benefits: At CJAL, we are committed to cultivating a thriving, self-sustaining performing arts ecosystem that:

- Nurtures young talent through professional-caliber training and performance opportunities
- Strengthens community bonds by making theater accessible to all Coronado families
- Elevates the local arts scene through innovative partnerships with the City, Playhouse, and CoSA
- Fuels economic vitality by driving cultural tourism and supporting creative sector jobs

By bridging professional artistry with grassroots community engagement, we don't just produce shows - we're helping to build Coronado's creative future. Every production, workshop, and outreach initiative reinforces our cultural infrastructure while putting dollars back into our local economy through our revenue-sharing model. Our youth-driven performances address Coronado's gap in high-quality youth arts programming and help prepare the next generation of CoSA students, helping position the city as a regional hub for arts education.

- 30% of performance revenue directly supports the City of Coronado (via CivicRec portal), tying our success to that of our community.
- Scholarships and outreach, particularly focused on military families, seek to ensure accessibility to the arts, while sold-out productions drive traffic to local businesses.
- Nurture arts development pipeline for our participants through partnerships with CoSA and industry professionals.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

In our inaugural 2024/2025 season, CJAL has already made a significant impact on Coronado's youth arts landscape:

Season Highlights:

- Staged three professional-quality productions:
 - The Wizard of Oz, Youth Edition
 - Annie, Jr.
 - Charlie and the Chocolate Factory, Jr.
- Partnered with Coronado Recreation to deliver summer acting intensives
- Engaged 125+ young performers, with 90% from Coronado families

Our programs thrive through a foundation of excellence:

- Expert Leadership: Hands-on instruction from our Emmy-winning, Academy-affiliated, and gold-album-winning artistic team
- Community Commitment: A 6-member governing board and dedicated volunteer corps guiding our strategic direction
- Professional Standards: Broadway-caliber training in all aspects of musical theater production, including program direction by SDSU and USD teaching professors.

Extensive partnerships: The Coronado Junior Arts League (CJAL) has cultivated powerful partnerships that elevate our youth theater program, including collaborations with the City of Coronado (through shared revenue and CivicRec integration), the Coronado Playhouse (providing professional performance venues), and CoSA (creating advanced arts pathways), while our academic partnerships with USD and SDSU enable college students to earn credit while mentoring young performers, forming a complete educational ecosystem that benefits participants at every level.

CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

The City of Coronado's Economic Development Grant would directly support A Taste of Coronado, the Coronado Junior Woman's Club's (CJWC) largest annual fundraising and community-building event, now entering its 16th year. Held each October, this beloved event transforms the city into a vibrant culinary and retail destination, drawing over 1,000 participants from across San Diego County and beyond to explore the best of Coronado's shops, restaurants, and small businesses.

A Taste of Coronado offers participants a walking tour of Coronado's business district, where they enjoy curated "tastes" from over 37 local vendors—ranging from established restaurants and retailers to new businesses seeking visibility. These businesses benefit not only from day-of foot traffic and increased sales, but also from the opportunity to connect with new customers and build relationships that generate repeat business well beyond the event itself.

In 2025, CJWC aims to amplify the event's reach with a focused \$15,000 marketing campaign designed to attract new visitors, promote participating businesses, and celebrate Coronado as a top-tier destination for food, drink, and retail. The campaign will include digital advertising, local and regional press outreach, social media promotions, and cross-promotion by vendors.

Importantly, proceeds from the event support a range of nonprofit causes. Past beneficiaries include organizations such as Outdoor Outreach, Camp Able, the San Diego Rescue Mission, and many others, with annual distributions of up to \$35,000. This dual-purpose event not only boosts local commerce but strengthens Coronado's broader impact as a philanthropic and welcoming community.

With its longevity, growing reach, and demonstrated benefits to both the business community and charitable causes, A Taste of Coronado is a proven economic development driver that embodies the goals of this grant. By supporting our expanded marketing efforts, the City of Coronado will help us bring more visitors to our beautiful town, spotlight our small businesses, and further cultivate Coronado's reputation as a premier regional destination.

Question 2: How does this program/event benefit the Coronado community?

A Taste of Coronado significantly enriches the Coronado community by driving foot traffic to local businesses, increasing regional awareness of Coronado's dining and retail offerings, and fostering long-term patronage of participating establishments. With over 1,000 attendees each year—many of them first-time visitors—the event boosts same-day and repeat sales for local restaurants, shops, and service providers.

Additionally, the event strengthens community ties by bringing residents, business owners, and visitors together in a shared experience of Coronado's charm and hospitality. It also offers small and emerging businesses a platform to introduce themselves to a wider customer base in a low-barrier, highly visible way.

Finally, all event proceeds go directly to charitable causes, enhancing the community's philanthropic impact. By supporting A Taste of Coronado, the City is investing in a powerful local tradition that uplifts commerce, community, and compassion in one vibrant evening.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

The Coronado Junior Woman's Club (CJWC) is a trusted, volunteer-run nonprofit organization with a long-standing history of successful event execution, community involvement, and fundraising. We have produced A Taste of Coronado for 15 consecutive years, even adapting during pandemic years to ensure continuity and safety while maintaining support for our community partners.

Our experienced team of volunteers includes professionals in event planning, marketing, logistics, and sponsorship development. We have strong relationships with Coronado's local businesses, many of whom participate year after year due to the event's tangible economic and promotional benefits.

Each year, we coordinate over 37 participating vendors, manage ticketing, orchestrate volunteer staffing, and execute a marketing campaign across multiple platforms. Our operations are efficient, community-minded, and driven by a passion for supporting Coronado's business ecosystem and charitable landscape.

CJWC's track record demonstrates a deep commitment to the city and the capacity to deliver a high-impact event. With City of Coronado support, we will expand the event's reach and enhance the positive outcomes for local businesses and the broader community.

CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

Community members approached the CoSA Foundation more than two years ago to begin a conversation about hosting a professional opera performance for the community at the Coronado Performing Arts Center. This conversation began after the success of many opera solos and ensembles in smaller Coronado venues. This group of volunteers has continued to meet and plan a large-audience, professional opera performance. West Side Story is that performance.

Knowing the Coronado community has a strong desire to attend arts events close to home, the Coronado School of the Arts Foundation is looking to host a production of West Side Story, a timeless classic along with Leonard Bernstein's iconic score presented with the grandeur of classical opera. This rendition would bring together the amazing Gabriella Rodmac, Felipe Prado, Mariana Flores Buclo and Joshua Davide Cavanaugh. This talented group of performers along with the Ensenada Chamber Orquesta and Coronado's very own Musica Vitale choir are sure to delight audiences far and wide.

Gabriella Rodmac was born in San Diego and raised in Tijuana, she began her musical journey at a very young age performing at school concerts as well as being a member of her church choir. She studied classical singing at the Conservatorio de la OBC in Tijuana after which she enrolled as a Dramatic Arts major and music minor at Mesa College in San Diego. Gabriella continued her theatrical studies in Madrid, Spain at the Escuela Superior de Artes y Espectaculos. After performing at various concerts in Spain, Mexico and USA, she settled in Milan, Italy where she was accepted at Scuola Civica di Musica Claudio Abbado. After obtaining her Bachelor's in Classical Singing she went on to debut her first operatic role in a production of Mozart's Don Giovanni at Teatro Giuseppe Verdi in Busseto, Italy.

Felipe Prado is a renowned musician from Chile who has graced several stages throughout San Diego and Tijuana. Some of his roles include: El Remendado in Carmen and The Prince of Persia in Turandot with San Diego Opera, Alfredo in La Traviata, and Mario Cavaradossi in Tosca with Pacific Lyric Association, Ferrando in Così fan tutte with Pacific Palisades Symphony, Borsa in G. Verdi's Rigoletto with AVSOMC, Gastone and Giuseppe in La Traviata with AVSOMC. He was also Rodolfo in La Opera de Tijuana's production of La Bohème, the cover for the role of Il Duca di Mantova in Rigoletto with Pacific Lyric Association, the role of Tamino in Die Zauberflöte by W.A. Mozart with Ridgecrest Opera Guild, and Spoletta in Tosca by G. Puccini. Most recently he has been the soloist for the concert Opera Highlights with the California Philharmonic Orchestra.

The funding for this performance would allow the CoSA Foundation the ability to present a high quality arts experience that is close to home and affordable for its residents.

Question 2: How does this program/event benefit the Coronado community?

This opera rendition of West Side Story will be an asset to the Coronado community. Not only will it draw much attention in and around San Diego, the love for this production will transcend our

country's borders. With the event partnering with the ever talented Ensenada Chamber Orquesta, it is sure to attract opera enthusiasts and music connoisseurs from Mexico as well. With such amazing talent, artists such as Gabriella Rodmac, Felipe Prado, Mariana Flores Buclo and Joshua Davide Cavanaugh will all bring with them their amazing and dedicated followers. This is such a special event and location for artists who have called both San Diego and Tijuana home. Additionally, this event will surely garner much attention as it is a unique experience that is not offered many places. Coronado, with its' charming restaurant scene as well as a beautiful performing arts center is the perfect venue for this special performance. Hosting this event also puts Coronado and the performing arts center on the map as a place for exceptional talent and stellar hospitality.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

CoSA brings nearly 30 years of expertise in producing professional full-stage arts performances. Our team of highly skilled staff and volunteers work together seamlessly to manage every aspect of a production. We handle everything from lighting and sound to promotion and event-day logistics. This show offers an excellent opportunity for our students to contribute to the production of another main stage performance. Typically, as performers, our students don't have the chance to observe other facets of the production process. Alongside gaining valuable production experience, CoSA students will experience the magic of opera in a whole new way.

Hosting such a unique and diverse event at our own Coronado Performing Arts Center provides a fantastic opportunity to inspire interest in the arts. This performance will also expand access to the arts within the community, enriching the cultural landscape of the City of Coronado.

CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

FOCUS has seen incredible growth in recent years - we are raising more money, working with more agencies, deploying more funds. Our Coronado membership has increased, and we launched an internship program for Coronado High School students to learn about non-profit organizations and provide direct volunteer services to benefit at-risk children. To keep up with this growth, we desperately need to upgrade our technology, and we seek this City Grant to help us with that process.

In the past five years, the FOCUS annual investment in San Diego County's children in need has grown over 300% from \$73,000 to \$249,000. FOCUS remains an all-volunteer organization that does not give money, but personally shops and delivers goods to meet the needs of the growing numbers of our most vulnerable children.

In addition, FOCUS provides a means for concerned Coronado residents to get involved in their community, by vetting local agencies, coordinating their needs and scheduling meetings and volunteer opportunities. Our new CHS Internship Program is expanding our reach to youth in Coronado.

FOCUS is pleased to be able to do more for children, but is struggling to continue to operate as an all-volunteer organization. To minimize the administrative strain, FOCUS intends to automate more administrative duties. While FOCUS has great technologies, they all operate independently and require a significant amount of manual effort to maintain. With investment, we can upgrade and integrate our transactional systems, allowing us to function more effectively, provide a better experience for our members, beneficiaries and interns, and continue to operate as an all-volunteer organization.

The project will cost approximately \$45,000 total. We will upgrade in phases as we receive funding.

GOALS:

- Refresh the FOCUS website to create a "one stop shop" for all visitors.
- Provide a "Members Only" page
- Create a FOCUS Internship page to allow Coronado High School interns to more easily access information, sign up for events and track hours.
- Develop integrations between backend systems to allow the automation of administrative tasks

SPECIFICATIONS: The website (www.focus-sdkids.org) refresh shall include the following components:

Home Page: Enable visibility of important events and messages.

Membership Page: Integrate membership information and payment processing; Process payments within the Membership page; Add new members into the Salesforce.com Contact with all relevant profile and membership information.

Membership Only Section: Membership Directory; Profile & Membership; Visibility of profile and membership status; Ability to modify profile information; Ability to renew membership; Integrate with Salesforce for Profile and Membership information; Update profile and dues payments to Salesforce

Forms and Sign Ups: Access to reimbursement form or any others as needed; Sign up to volunteer

New Agency Page to allow agencies to: Submit Project Requests; Check the status of project requests; View and update agency mission statements

New Internship Page to include: Description of program; Application page; Pictures and profiles of current interns; Links to activities

New Sponsor Page: Opportunities; Contact Page

Financials Page: Display financial reports

In addition to the FOCUS website, we plan to build integrations between Givesmart, Quickbooks and Salesforce.

Question 2: How does this program/event benefit the Coronado community?

By increasing our efficiency with technology, the Coronado community will benefit in several ways.

1. FOCUS will be able to continue to exist as an all-volunteer organization serving at-risk youth in San Diego County, including Coronado. We currently provide vital supplies to several Coronado agencies that support children, including Safe Harbor and Camp Able.
2. Our 13-member Board of Directors, all of whom are Coronado residents, will more efficiently be able to do their work, which will ensure FOCUS' continuity into the future.
3. Coronado High School students will continue to benefit from FOCUS' new internship program. This is our first year offering this program, and we currently have 14 interns. It has become clear that we must improve our technology if we are going to continue to offer and expand the internship program.
4. We have almost 250 active members, the vast majority of whom live in Coronado. By improving our website and technology, these residents will have a much better membership experience, and will continue to engage in our shared mission of helping at-risk children. We also will be able to continue to attract additional community members into our membership.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

Our FOCUS Board includes individuals with exceptional skill in technology. This year, we created the new position of VP of Technology, which is held jointly by Pat Robitaille and Jill McCormack, both of whom have years of experience with technology and have held senior leadership roles with national and international corporations. They are actively shepherding this project, and have the required expertise to see it through to completion.

TITLE OF GRANT REQUEST: Enhancing and Improving Technology to Assure the Continuity of FOCUS

CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

Island Yoga Cares is seeking seed funding to power our Community Wellness Initiative, the first project of our newly formed nonprofit. This transformative program provides free yoga, meditation, breathwork, and sound healing classes to underserved populations in Coronado. By making wellness practices accessible, we can enhance the physical, mental, and emotional well-being of those who need it most.

With the funding from this grant, Island Yoga Cares will offer free classes, personalized lessons, and special mindfulness events over the next year, ensuring those facing financial or other constraints can benefit from our services. Our program will feature:

- Yoga and Pilates sessions adapted to various skill levels and physical capabilities.
- Private, individualized lessons to address specific needs.
- Meditation and breath-work workshops that foster relaxation, focus, and emotional resilience.
- Sound healing sessions utilizing therapeutic vibrations to enhance stress relief and mental clarity.
- Quarterly community wellness events that invite Coronado residents and workers to come together, nurturing social connections and collective well-being.

This initiative prioritizes enlisted military personnel and their families, older people, individuals with disabilities, first responders, schoolteachers, teenagers, and the residents and staff of Generate Hope. Generate Hope in turn supports survivors of human trafficking. These groups often endure significant stress, trauma, and burnout. Mindfulness-based exercise and relaxation techniques can be crucial for improving their overall health, yet many face barriers limiting their access to the services that could bring relief.

We are committed to creating an accessible and inviting environment. All sessions will be led by instructors sensitive to trauma yoga and therapeutic movement, ensuring that every participant feels safe and welcomed.

Additionally, our program will incorporate a robust evaluation component to measure its impact. We will track attendance to monitor community engagement and identify areas for growth. Participants will complete post-program survey to measure stress, physical health, and improvement in emotional well-being.

At Island Yoga Cares, we firmly believe that well-being is a fundamental right, not a luxury reserved for a select few. This initiative aligns seamlessly with the City of Coronado's mission to enhance its residents' and employees' quality of life through wellness opportunities that promote mental and physical health, reduce stress, cultivate friendships, and build a stronger, more connected community. By supporting our initiative, you can help us make a meaningful difference in the lives of those who need it most.

Question 2: How does this program/event benefit the Coronado community?

The Community Wellness Initiative is a vital asset for the Coronado community, fostering health, well-being, and stronger social ties. Individuals become more productive and engaged when

healthier, driving the community's success forward. Our diverse programs offer incredible health and wellness advantages: enhanced flexibility, improved strength and balance, and significant reductions in stress and anxiety. Participants also enjoy better sleep, a more positive mood, decreased symptoms of depression, and sharper focus and concentration. Most importantly, this initiative provides this to our community members who typically lack access, which helps build a thriving Coronado for EVERYONE.

The individuals we support—military personnel, older adults, people with disabilities, first responders, teachers, teenagers, and trauma survivors—experience high levels of stress and anxiety. Our program offers accessible wellness practices to reduce burnout and improve overall quality of life.

This initiative benefits underserved individuals and strengthens our community. By providing free wellness sessions, we create a space for self-care where participants can uplift one another. Individual lessons are available for those with social or physical disabilities, and community wellness events encourage residents and island employees to unite, enhancing Coronado's identity as an inclusive city.

Additionally, this program aligns with Coronado's commitment to public health by making wellness resources more accessible and reducing barriers. Investing in the well-being of those who serve our community fosters a healthier, more resilient Coronado—empowering individuals to care for themselves and better serve others, which also helps us build a thriving community.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

Island Yoga Cares is a dedicated nonprofit partner of Island Yoga Coronado, proudly boasting a six-year history of making yoga, Pilates, meditation, and wellness accessible to the Coronado community. Our team is comprised of experienced and certified instructors who specialize in trauma-informed yoga, therapeutic movement, and mindfulness practices.

We have established strong partnerships with local organizations like Generate Hope, The Station Foundation, Coronado Unified Schools, and Coronado First Responders to deliver essential wellness services to underserved populations. These collaborations highlight our ability to effectively coordinate with community stakeholders, ensuring our outreach efforts reach those in need.

Our leadership team consists of professionals skilled in program development, grant management, and community engagement, which guarantees that our initiatives are executed efficiently and produce measurable outcomes. We have robust systems in place for tracking attendance, gathering participant feedback, and evaluating program effectiveness, enabling us to continually enhance our services.

We actively seek grant funding, community donations, and corporate sponsorships to sustain and expand our impactful programs. The mini-grant we are requesting will allow us to increase the number of free and low-cost classes we offer, as well as expand the groups we provide free services to, while maintaining our high standards of instruction and outreach.

With a proven track record of delivering meaningful wellness programs, a passionate team of instructors, and valuable community partnerships, Island Yoga Cares is fully prepared to successfully implement the Community Wellness Initiative and maximize its benefits for those who live and work in Coronado.

CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

Statement

The KMAC Foundation for Accessible Sailing in San Diego Bay, using specially adapted sailboats, provides therapeutic, recreational, Corinthian racing, and other sailing opportunities for people with disabilities to enhance their mobility, well being, and independence.

About KMAC

Lt.JG Kyle McArthur (aka KMAC) led a full and joyful life. He attended Coronado schools, the Naval Academy and participated in many sports. He was an avid sailor and enjoyed spending time with his family on the water. He was involved in a fatal automobile accident in 2013, however, he touched more lives in his brief time on earth than many accomplish in a lifetime. It's our vision that through the annual KMAC regatta and this foundation we can share his love of sailing and make a difference in the lives of others who want access to the sport of sailing.

Question 2: How does this program/event benefit the Coronado community?

Community access to the City of Coronado and surrounding communities.

The KMAC Foundation provided adaptive and accessible sailing opportunities for everyone. Adults and children, people with disabilities and Veterans.

Using Hansa type sail boats, that are designed to be fully accessible to disabled sailors and non disabled as well, we provide year round opportunity to sail on Glorietta Bay. We additionally host four accessible regattas each year for the disabled community worldwide. This years KMAC will have participants from Canada, Chile, and NewZealand, as well as Tampa Florida to Hawaii.

KMAC has also hosted students from Perkins Elementary School in Logan Heights and Sea Cadet from Escondido.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

We are in our fourth year of operations in Coronado. Each year we get a stronger involvement from our volunteers as we all learn to serve the disabled community. Our Board of Directors

include three disabled Veterans, two wheel chair users, and a wide range of community members from various service organizations.

The President is a life time resident of Coronado, a disable Veteran with 60 years of sailing experience including 16 years of direct sailing experience with the disabled community and a retired Special education teacher with a special needs daughter.

CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

Community Engagement initiatives:

With City of Coronado support, we will expand our positive community impact by executing the following community outreach / fundraising programs that allow us to bring in dollars, grow our volunteer base and share our mission and service to community:

1. Summer youth camp to empower youth through education on how to handle and care for dogs and cats. Grant dollars provide seed money for camp materials and outreach to our local community providing a positive experience to youth leadership programming for ages 8-12 over school break periods allowing us to keep camp rates per child under \$300 (rate to be determined).

Total cost to run camp for two weeks (half day camp for one week serving ages 5-13 for two consecutive weeks) \$5000

\$1500 in seed money would come from City of Coronado mini grant to promote the program and the existing partnership, educate youth and parents on proper pet care to include the importance of licensing and vaccination and proper animal handling-this event is not FREE but costs will be kept to a minimum. We encourage City of Coronado to provide a logo to be listed as a community event sponsor.

2. Ruff Run, annual event that brings dogs, visitors and residents together to enjoy a day of exercise and community highlighting the available canines we have in house ready for adoption and foster programs. Grant dollars serve as seed money for the annual run that takes place in Coronado for approximately 350 participants, allowing PAWS to promote our existing partnership, expand our database of volunteers and fosters to care for animals until we locate forever homes, grow community engagement and understanding of PAWS services to Coronado residents.

Total cost of event: \$19,500

\$9000 would come from City of Coronado mini grant. This event is FREE for the community to watch, participants pay to enter the walk/ race. We invite City of Coronado to allow PAWS to place logo recognition on participant t-shirts and marketing materials.

3. Pet Food Community Pantry- Military families and locals with more month than money can visit the PAWS OF CORONADO PET FOOD PANTRY each week to pick up much needed pet food and cat litter (open 2x week) allowing those struggling to keep their pets, reducing the amount of strays and pet surrenders. The program will be run by staff and volunteers as a way to serve the community. A resource for pet owners in need of a hand.

Program fees: \$12,500 to launch

\$4500 from City of Coronado Mini Grant. We encourage City of Coronado to provide a logo to be a presenting sponsor!

Question 2: How does this program/event benefit the Coronado community?

PAWS of Coronado in partnership with City of Coronado provides services for animal welfare, community safety as a safe haven for abandoned, abused or neglected animals in addition to licensing services and reducing animal born illnesses in the community, protecting public health. PAWS is a community gathering space, a community hub, connecting people with pets and fostering a sense of shared responsibility for animal welfare, the city ultimately contributing to a safer overall environment.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

PAWS in partnership with City of Coronado has been in existence since 2003. The staff, working in collaboration with the board of directors, is well-equipped to plan and execute all events and programs effectively. We have valuable volunteers at the ready to assist. All programs have been modeled after previous successes or in the case of the pet food party, we have a coalition of animal welfare organization to provide input and guidance.

CITY OF CORONADO COMMUNITY GRANT PROGRAM MINI-GRANT NARRATIVE QUESTIONS FY 2025-26

Question 1: Briefly describe the program or event this funding will support.

This innovative and unique project by Storytellers of San Diego (SSD) seeks to celebrate, promote, and preserve the rich and historic local folklore of Coronado, through a series of live storytelling performances, recordings, publications, and workshops.

The project includes the following activities:

1. **STORYTELLING INSTITUTE:** The “Storytelling Institute” is a program that we have previously offered in Coronado, thanks to previous generous grants from the City of Coronado. Creating a Community of Storytellers, it consists of a series of six workshops, available for free for adult members of the community.
2. **COLLECTING LOCAL CORONADO STORIES:** SSD members will interview locals and research Coronado historical records to collect local stories of various genres—local history, places of interest, personal stories, folklore and legends—which showcase the rich and diverse heritage of Coronado.
3. **STORYTELLING PERFORMANCES:** Our diverse team of highly-skilled professional storytellers will hold performances of these local Coronado stories at the Coronado Public Library, all 6 schools in the Coronado District, as well as select libraries in the City of San Diego. All events will be free of charge to the public.
4. **RECORDINGS:** Many of our performances will be recorded, for a lasting video and audio archive. Recordings will be publicly available online, preserving them for posterity and maintaining a lasting archive of Coronado’s local folklore.
5. **ORIGINAL BOOK OF CORONADO LEGENDS AND LORE:** SSD members will write and publish an original book of Coronado stories and legends, the first of its kind. The book will be published in both print and e-book formats, and distributed to schools, libraries, and community facilities free of charge. The book will highlight the rich and varied lore, legends, and history of Coronado, including, among others:
 - The shipwreck of the SS Monte Carlo off the shores of Coronado in 1937
 - Local Kumeyaay heritage, including native fishing villages and the story of Coronado’s last Kumeyaay residents.
 - Famous and infamous people connected to Coronado;
 - Curiosities, testimonies and legends regarding the building of the bridge and the hotel;
 - Tales from the military presence;
 - The age of the tent city and streetcars in the early 1900s,
 - Coronado’s early 1900s connection to the Theosophists of Point Loma, and the mysterious occultist Madame Tingley;
 - Modern-day legends of ghosts and “haunted places” in Coronado, beyond the Hotel Del.

This book will be an historic first collection of Coronado’s own local lore and legends, preserving them for posterity and promoting civic pride and community spirit. These same stories will be highlighted and presented at all our public events.

6. **FINAL EVENT: BOOK PRESENTATION AND STORYTELLING:** This yearlong program will conclude with an event, held at a Coronado community facility, featuring storytelling by both SSD members as well as select participants from the Storytelling Institute. The event will also serve as the official launch party for the book, presenting these unique local legends of

Coronado's heritage.

*Please see attached Budget document for detailed breakdown / itemization of costs. Please note that SSD is entirely flexible on the scope of programming and amount requested.

Question 2: How does this program/event benefit the Coronado community?

This project seeks to celebrate, promote, and preserve the rich local oral folklore of Coronado. The U.N. Universal Declaration of Human Rights ensures the right of all people to “freely participate in the cultural life of their community and to enjoy the arts” (Art. 27). This project will uphold that right of Coronado's residents, providing an unprecedented, multimedia experience combining live storytelling, live music, print media, video and audio recordings, and online social media. It will bring all ages and demographics of Coronado's community together, through stories that celebrate the city's diversity and long legacy of local folklore.

As we have seen in previous years, SSD's Storytelling Institute will provide an unequalled opportunity for community members to develop the storytelling skills widely recognized as essential to personal, business, educational, and community development. The Storytelling Institute will be held at the Coronado Library, a highly-regarded hub of the community, and will cater to diverse backgrounds, welcoming all, regardless of ethnicity, experience, income, culture, and age. The workshops are free to attend and provide all needed materials and resources. Past Institutes have been the subject of articles in print and social media through the Coronado Library, the Storytellers of San Diego, and affiliated entities.

All facets of this program will instill community pride and awareness, as well as greater engagement and patronage of the community facilities and spaces hosting them. Coronado's schoolteachers will likewise have a collection of local lore to incorporate into a variety of educational contexts.

Question 3: Describe your organization's capacity to successfully implement this program/event. For example, do you have experienced staff/volunteers, prior experience running similar programs, or established partnerships that support execution?

Storytellers of San Diego (SSD), is a non-profit, 501(c)3 association made up of dozens of professional and highly skilled professional storytellers. Since the 1980s, the organization has devoted itself to promoting storytelling as an art form throughout San Diego County.

SSD previously received grants to conduct the Storytelling Institute in the City of Coronado, in 2022 and 2023. Shaun Briley, Coronado Library Director and Jacqueline Luna, Senior Librarian in charge of Programs, have both expressed support for the Storytelling Institute and our annual, Storytelling Festival both held at the Coronado Library.

Interest and attendance exceeded expectations by far, with attendees enthusiastic and overwhelmingly positive feedback. Several participants have been featured in our storytelling festival and reported using storytelling successfully in personal educational and business settings. Requested and expressed interest in future workshops. A similar Storytelling Institute was offered in north San Diego County in 2018 and 2019, with very positive results.

In addition, we recently conducted a broad-reaching and ambitious local folklore project in the city of Chula Vista, California, titled “Tales from Proctor Valley: a storytelling, folklore, and cultural heritage initiative.” This project involved local folklore collection, the publication of an original volume of local stories, and a series of public storytelling performances, similar to our proposed project for Coronado. We performed these local legends at 27 different events at a variety of local schools, museums, and public libraries.

Local television interview regarding project:
