Project Address:		Zip Code:	
Applicant's Name:	Applicant's Daytime Phone:	Applicant's Email:	
Contractor's Company Name:	Contractor's Daytime Phone:	Contractor's Email:	
Estimated Start Date (mm/dd/yy):	Estimated Date of Completion (mm/dd/yy):	For City of Beaumont Use Only Approved By:	

CONSTRUCTION & DEMOLITION WASTE DIVERSION PROGRAM

This project will recycle, reuse, compost, and/or salvage **a minimum of 65% (by weight)** of the material and/or waste generated on site per CALGreen code requirements (CGBSC Sections 4.408.1 and/or 5.408.1)

INSTRUCTIONS AND REQUIREMENTS

Please read the following requirements and initial each box to acknowledge that you agree to comply with these conditions:

☐	Waste Prevention & Recycling : Review waste prevention and recycling at the start of each safety meeting for tract, commercial, and industrial projects. For single-family projects, additions, or remodels, the applicant must ensure the contractor understands the program and the 65% diversion requirement.
☐	The permit applicant must: 1. Provide each subcontractor with copies of Form 1 (Waste Management Plan) and Form 2 (Diversion Report), and show them the site's recycling areas; or 2. For single-family projects, additions, or tenant improvements without subcontractors, clearly set up and label recycling bins or stockpile areas for materials.
☐	On-Site Recycling Requirements During construction, provide at least two bins: - One for waste (trash) - One for recyclable C&D materials Label all recycling bins clearly and post lists of accepted and prohibited materials throughout the site.
☐	Option 1: Use the City's Exclusive Waste Hauler, WM
☐	Option 2: Self-haul to an approved recycling facility.
☐	A. Contact WM (866)445-8296 to order bins and/or roll-off boxes.
☐	B. Request WM to process the load as C&D waste for recycling. Recyclable C&D debris hauled directly to the landfill by WM will result in non-compliance.
☐	C. Keep weight tickets and diversion report from WM.
☐	A. Contractor must use their own employees and vehicles to haul material to an approved recycling facility.
☐	B. Carefully track all C&D waste generated by the project and haul all C&D waste to an approved recycling facility.
☐	C. Keep all receipts, weight tags, or invoices for all loads delivered to a recycling facility.
☐	D. Documentation must state that waste received by the recycling facility was considered "C&D" or recycled at 65% and originated from the City of Beaumont.

- STEPS**
- Form 1 (Diversion Plan) must receive approval from the City of Beaumont before building permits can be issued.
 - Form 2 (Diversion Report) must receive approval from the City of Beaumont before a Certificate of Occupancy can be issued.

Note: Form 2 must include clear, legible entries and original receipts with certified weights for all materials that were recycled, reused, composted, salvaged, or disposed of (landfilled).

Materials	Expected Material Types (check all that apply)	Waste Management Method (i.e., Recycle, Reuse, Compost, Salvage, Landfill)	Authorized Disposal Site or Diversion Facility (i.e., Badlands Landfill, Agua Mansa Facility, WM Transfer Station)	Comments
