

Town of Tyrone Building Permit Application

Tyrone Tyler, NY
457 County Road 23
Dundee, NY 14837
Code Enforcement Department
Phone: (607)292-3168

An incomplete application will delay the timely issuance of your permit

Part 1: GENERAL INFORMATION

☐ Commercial ☐ Solar ☐ AG building ☐ Residential ☐ Marina ☐ Lake ☐ Other ☐ Accessory structure

1. Project Location and Information

Number and Street Address: _____

Tax Map Number: _____ Lot Size: _____

Current use of property/building: _____

Proposed use of property/building: _____

2. Owner Identification

Owners Name: _____

Address of owner: _____

City, State, Zip: _____

Phone Number: _____

3. Type of Construction or Improvement

☐ New Building – proposed use is _____

☐ Conversion- current use is _____ proposed use is _____

☐ Addition ☐ Alteration ☐ Repair/ Replacement ☐ Relocation ☐ Solar ☐ AG building

☐ Demolition ☐ Misc. Structure or Equipment _____

☐ Electrical ☐ Heating System ☐ Septic System ☐ Fire Repair ☐ Pole barn ☐ AG processing

ALL OTHER _____

4. Description of Project

5. Project Cost _____

Date Received: _____ Fee Paid: _____ How Paid: _____ Permit # _____

Part II: DESIGNERS AND CONTRACTORS

1. Architect/Engineer: Name: _____
Address: _____
City, State, Zip: _____
Phone Number: _____
2. General Contractor: Name: _____
Phone number: _____
3. Electrical Contractor: Name: _____
Phone number: _____
4. Plumbing Contractor: Name: _____
Phone number: _____
5. Mechanical Contractor: Name: _____
Phone number: _____
-

Part III: PROJECT LOCATION AND DETAILS

PLEASE ATTACH A PLOT PLAN

A drawing of work to be performed must be made a part of this application and include the following:

PLOT PLAN.

1. Location of the proposed structure or addition showing the number of stories and all exterior dimensions.
2. The distance of the proposal from all lot lines.
3. The distance of the proposal from any structure including neighboring structures.
4. The depth of the proposed foundation or footers; 48" minimum.
5. The maximum percentage of the lot to be covered by the building(s) lake property only.
6. A copy of a survey may be required.

Addition will be used as ☐ Family room ☐ Living Room ☐ Kitchen ☐ Den ☐ Bedroom

☐ Bathroom ☐ Full-or-☐ Half ☐ Other _____

Basement: ☐ Full ☐ Partial ☐ Crawl ☐ Pier ☐ Slab ☐ Livable

Garage: ☐ Attached ☐ Detached ☐ Two story storage space

Utilities: ☐ Electric ☐ Gas ☐ Other _____

Deck/Porch ☐ Open ☐ Covered ☐ Enclosed ☐ Screened ☐ Other _____

Marina / Residential ☐ Deck ☐ Roof-over Deck ☐ Gazebo ☐ Shed ☐ Other _____

Type of Heating and Fuel: _____

Two sets of Drawings – May require NYS Licensed Engineer or Architects stamp

Contractors Material List

Septic Design: _____

ADDITIONAL REQUIREMENTS

Note: failure to provide required information will delay permit issuance.

If you are building a new structure, a major addition or a major renovation:

1. If new construction OR renovation exceeding \$20,000 this may require NYS Registered Engineer or Architect stamped plans to include, but not limited to: foundation type, framing type, all building systems including heating, electrical and plumbing, total square footage, number of baths, number of stories, insulation, length and width, elevations, etc. Must include a statement on plans that "ALL work will comply with the 2020 NYS Building Codes and 2 (two) stamped copies provided to this office.
2. If a new addition increases the TOTAL square footage of an existing structure to exceed 1500 Sq. ft. you need to supply 2 copies of the Engineers or Architect's stamped plans. See details above.
3. Architect/Engineer Name: _____ Phone number _____
4. Otherwise Detailed drawings 1500 square foot and under Will be required.
5. **Must include** a copy of tax map or survey showing location of all structures on lot with all setbacks clearly identified, location of on-site wastewater disposal systems, water wells, and names of all adjoining property owners.
6. Wastewater Systems for New Dwellings require prior design approval by Schuyler County Watershed Protection Agency

If performing a renovation or alteration: where the aggregate square footage does not exceed 1500 square foot and the total value of new work is less than \$20,000, you need to supply 2(two) sets of scaled drawings, showing area of work and type of work, IE: size and location of joists, studs, rafters, type of construction, depth of footers, location of electric service, windows, doors, piping, fire exits, location of wastewater disposal system, insulation and all required Code Compliant Information.

Additional information required for Manufactured Home:

1. All manufactured homes must have an Installers Warranty Seal placed on the inside of the master bedroom closet. A building permit will not be issued without knowing that the installer is certified to affix such a seal. Please provide a copy of the Installers Certification from NYS Dept. of State.
2. Must provide 2(two) copies of the Engineer's STAMPED plans for the foundation system.
3. Must include all information from HUD Number Plate and the Manufacture Name & Serial Number of each section of home, along with Make, Model, and year of home.
4. Must include a copy of Tax Map or survey showing location of all structures on the lot with setbacks clearly identified, location of septic system, electric service, water well, and names of all adjoining property owners.

If doing any gas piping or electrical work – these will need to be inspected by Approved Inspectors ONLY. For gas piping inspections – check with NYSEG or an LP supplier for approved inspectors. You need to supply a copy of their inspection report after installation to the Building Inspector. They may charge for these inspections and those fees are your responsibility.

If you will be doing ANY excavating or digging This includes using a shovel or a post hole, digger or an auger for your project – Call 811 at least 3 (three) days in advance of beginning work. Penalties may apply to repair underground lines if you do not!

REQUIREMENTS FOR:

1. **Change of use of Land or Structure:**

Current Use: _____

Proposed Use: _____

2. **Sprinkler or Alarm System:** You must provide a copy of Manufacturer Documentation to the Building Inspector along with the layout of system. Installers must supply copy of their License to the Building Inspector.
3. **Solid Fuel Burning Device:** ☐ Wood ☐ Pellet ☐ Coal ☐ Corn ☐ Outdoor unit ☐ Other _____
Include copy of venting requirements and unit specifications from manufacturer's instructions and copy of sales order or receipt with application.
4. **New or modified On-site Wastewater Disposal Systems;** (Septic) may be regulated by SCWPA or NYS Dept. of Health. As such, may require design approval by a NYS registered Engineer or Architect.
5. **ALL POOLS** or hot-tubs capable of holding 24" or more of water **MUST HAVE** an alarm and be surrounded by a barrier a minimum of 48" tall with self-closing gate or shall be enclosed within structure. The barrier must completely surround the swimming pool and must obstruct access to the swimming pool. The barrier must be at least 4 feet (48 inches) high. The space between the bottom of the barrier and the ground cannot exceed 2 inches. In the case of an above-ground pool, the barrier may be at ground level or mounted on top of the pool structure; however, if the barrier is mounted on top of the pool structure, the space between the top of the pool structure and the bottom of the barrier cannot exceed 4 inches. Any opening in the barrier must be small enough to prevent the passage of a 4-inch diameter sphere through the opening. All gates shall be securely locked with a key, combination or other childproof lock sufficient to prevent access to the swimming pool through such gate when the swimming pool is not in use or supervised. Every swimming pool that is installed, constructed, or substantially modified after December 14, 2006, must be equipped with an approved pool alarm.
6. **DEMOLITION** – You must supply a copy of the Asbestos Survey, as required in Code Rule 56 if you hire ANY employees or Contractors to perform any of the demolition work OR before the Fire Department may burn the structure. Code Rule 56 does not apply to owner-occupied single-family dwellings where owners perform the work themselves.
7. **LEAD PAINT HAZARD:** Contractors performing renovation, repair and painting projects that disturb lead – based paint on any structure built before 1978 must be certified and must follow specific work practices to prevent lead contamination. Common renovation activities like sanding, cutting, and demolition can create hazardous lead dust and chips by disturbing lead –based paint, which can be harmful to adults and children. To prevent this risk, EPA issued a rule requiring the use of lead-safe practices and other actions aimed at preventing lead poisoning for major repair or maintenance activities.
Minor repair and maintenance activities are those activities, including minor heating, ventilation or air conditioning work, electrical work, and plumbing, that disrupt 6 square feet or less of painted surface per room for interior activities or 20 square feet or less of painted surface for exterior.

Read before Signing

1. Work conducted pursuant to a building permit must be visually inspected by the Code Enforcement Office and must conform to the New York State Uniform Fire Prevention and Building Code, the Code of Ordinances of the Town of Tyrone, and all other applicable codes, rules or regulations.
2. It is the owner's responsibility to contact the Code Enforcement Office at 607-292-3168 at least 48 hours before the owner wishes to have an inspection conducted. More than one inspection may be necessary. This is especially true for "internal work" which will eventually be covered from visual inspection by additional work (ie: electrical work later covered by a wall). Do not proceed to the next step of construction if "internal work" has not been inspected. Otherwise, work may need to be removed at the owners or contractors' expense to conduct the interior inspection. Close coordination with the Code Enforcement Office will greatly reduce this possibility.
3. OWNER HEREBY AGREES TO ALLOW THE CODE ENFORCEMENT OFFICE TO INSPECT THE SUFFICIENCY OF THE WORK BEING DONE PURSUANT TO THIS PERMIT, PROVIDED HOWEVER, THAT SUCH INSPECTION(S) IS (ARE) LIMITED TO THE WORK BEING CONDUCTED PURSUANT TO THIS PERMIT AND ANY OTHER NON-WORK-RELATED VIOLATIONS WHICH ARE READILY DISCERNABLE FROM SUCH INSPECTION(S).
4. New York State Law requires contractors to maintain Worker's Compensation and Disability Insurance for their employees. Permit will not be issued unless currently valid Worker's Compensation and Disability Insurance certificates are attached to this application. Accord forms are not acceptable proof of Worker's Compensation. If a contractor believes they are exempt from the requirement to provide Worker's Compensation and/or Disability Benefits, the contractor must complete form CE-200 obtained from N.Y. S. Worker's Compensation Board on-line (on a computer) and provide a copy to this office.
5. If a Certificate of Occupancy is required, the structure shall NOT be occupied until said certificate has been issued.
6. Work undertaken pursuant to this permit is conditional upon and subject to any state and federal regulations relating to asbestos material. See attached page #4 Item 6.
7. This permit does not include any privilege of encroachment in, over, under, or up on any right of way.

8. The Building Permit must be displayed to be visible from the street nearest to the site of the work being conducted.
9. This building permit is valid for one year from the date of issue. Contact the Code Enforcement Office prior to the expiration date to discuss the need and validity of possible extension. Work must commence within 6 (six) months of the date of issue on this building permit.
10. Unless individually waived by the Code Enforcement Officer this application must be accompanied by the following:
 - a) A set of specifications describing the nature of the work to be performed, the materials to be used and installed and, if applicable, details of structural, electrical installations.
 - b) A lot/slip plan showing the location of the lot and buildings on premises, relationship to adjoining premises or streets, and details of project.
 - c) If the project is to be done by an individual other than the tenant, proof of insurance is required, liability, NYS compensation insurance or a CE200 form.

I; _____, the above-named applicant, hereby attest that I am the lawful owner of the property described within or am the lawful agent of said owner and affirm under penalty of perjury that all statements made by me on this application are true. I also agree to hold the Town of Tyrone harmless in the event of injury to anyone working on site. I understand that making false statements on this document is punishable by law.

Signature: _____ Date: _____

• **Permit & Inspection Requirements**

- All buildings—including agricultural structures—require a building permit and must undergo all applicable inspections as directed by the Code Enforcement Officer (CEO).
- Inspections may include post hole depth, framing, plumbing (if applicable), roofing, siding, windows, and doors.
Electrical work must be inspected by a licensed third-party electrical inspector — Fred Fitch.
- All trusses, for both agricultural and non-agricultural buildings, must be engineered and stamped by a New York State licensed engineer, including specifications for snow load, dead load, and truss spacing.
- Engineer-stamped plans are required for all processing facilities.
- All construction must comply with NYS Building Code, ICC, NFPA, and Energy Code standards.

Inspection Policy and Fees

It is the responsibility of both the contractor and the homeowner to schedule and ensure all required inspections are completed.

- There is a \$50 fee for each missed inspection.
- A Stop Work Order may be issued for repeated missed inspections or failure to comply.
- All outstanding fees must be paid in full before work on the project can continue.
- If an inspection does not pass, there will be a \$20 fee for each return inspection.
- Note: An additional \$50 fee will be charged if any work begins before a building permit is issued by the Code Enforcement Officer (C.E.O.).
