Written Description of Reason for Request:

Per Section 6.35.a. are the standards for approval of a non-use variance. Please write how you meet all 6 standards.

1. Strict compliance with restrictions governing area, setback, frontage, height, bulk, density, or other "non-use" matters will unreasonably prevent the owner from using the property for a permitted purpose or will be unnecessarily burdensome. The variance will do substantial justice to the applicant, as well as to other property owners.

2. A lesser variance than that requested will not give substantial relief to the applicant and/or be consistent with justice to other property owners.

3. The need for the variance is due to unique circumstances or conditions peculiar to the property and not generally applicable in the area or to other properties in the same zoning district such as exceptional narrowness, shallowness, shape, topography, or area.

4. The problem and resulting need for the variance has not been self-created by the applicant and/ or the applicant's predecessor may or may not be considered depending upon whether the practical difficulty would have existed regardless of the action.

5. The variance will not alter the essential character of the area. In determining whether the effect the variance will have on the character of the area, the established type and pattern of land uses in the area and the natural characteristics of the site and surrounding area will be considered.

6. The granting of the variance will not materially impair the intent and purpose of this Ordinance.
