

Non-Residential Sewer Service Application

City of Rialto

This application is used to screen businesses that may have a significant impact on the City of Rialto Wastewater Treatment Plant. The City has specific discharge limits regulating industrial discharges and the use of grease and sediment traps. This application is made in the name of the business that will occupy the new facility with the name and address of the owner/operator of the business as well as the physical location of the facility. If this facility plans to discharge more than 25,000 gpd, a wastewater discharge permit is required prior to commencement of discharge. This application should be completed by the business owner or his agent. If there are any questions concerning the City's Sewer Use Ordinances or the completion of this application please contact the City of Rialto Industrial Pretreatment Coordinator at 951-833-3470 or the Wastewater Treatment Plant Chief Operator at 909-877-2752.

Part I. Facility Occupant Information

The information requested in this section is intended to identify the location of the structure, the business that will operate in the structure, and the person responsible for the operation of the business; and the telephone number and mailing address for that person. If the business is owned by a company or person other than the local business and operator, the name, address, and contact person for the owner is also required.

1. Business Name: _____
2. Facility Address: _____, _____, _____, _____
(Address) (City) (State) (Zip)
3. Mailing Address: _____, _____, _____, _____
(Address) (City) (State) (Zip)
4. Contact Name: _____, _____, _____
(Name) (Title) (Phone)
5. Owner/Corporation Name: _____
6. Mailing Address: _____, _____, _____, _____
(Address) (City) (State) (Zip)
7. Contact Name: _____, _____, _____
(Name) (Title) (Phone)

Part II. Business Description:

The information requested in this section is intended to provide a basic understanding of the type of business that will be conducted at this facility. If a product is manufactured or a service performed on-site, please provide a brief description of the services, products, and processes used. In addition, briefly describe each process that will generate a liquid wastestream and identify if it will be discharged to the sewer or hauled off-site for disposal. Do not include sanitary wastestreams from restrooms, showers, or employee breakrooms. You may write on the back or attach additional pages to complete this section.

1. Business Activities:

2. Wastewater Generated:

Part III. Wastestream Characteristics:

1. There will be no discharge to the sewer, or the only wastewater that will be discharged to the sewers will originate from restrooms, showers, and employee break rooms (Sanitary Waste): ☐ Yes ☐ No

If the answer to question #1 is "Yes" then skip to answer questions #13-15 of the application.

2. Wastewater generated in the production of a product or performance of a service will be discharged to the sewers. ☐ Yes ☐ No

3. If wastewater will be generated in the production of a product or performance of a service provide your best estimate of the volume of water that will be discharged during a normal production day. (gallons per day)

4. Will a Boiler be operated at this facility? ☐ Yes ☐ No

5. Will Contact Cooling Water be used at this facility? (contact cooling water is cooling water which comes into contact with the product) ☐ Yes ☐ No

6. Will Non-Contact Cooling Water be used at this facility? ☐ Yes ☐ No

7. Wastewater containing animal or vegetable fats, oils, and grease will be generated? ☐ Yes ☐ No

8. Wastewater containing petroleum based oils and grease will be generated? ☐ Yes ☐ No

9. Hazardous Chemicals will be stored and/or used at this facility. ☐ Yes ☐ No

10. Hazardous Wastes will be generated at this facility. ☐ Yes ☐ No

11. The US EPA has established National Categorical Effluent and Pretreatment Standards for wastewater discharges from 57 industrial processes. It is the responsibility of the business owner to comply with these regulations. Are you aware of any processes used at your facility that generate a wastewater regulated under these Federal Rules? (If your facility will be generating a wastewater discharge from an industrial process and you are not sure if you should be regulated under these rules, please contact the City of Rialto Pretreatment Coordinator.) ☐ Yes ☐ No

12. If the answer to Question #11 is "Yes", please Identify the process and the Federal Code that regulates the discharge.

13. Number of Operating Hours per Day:

14. Number of Operating Days per Week:

15. Number of Employees working at the facility.

The information contained in the application is familiar to me and to the best of my knowledge and belief, such information is TRUE, ACCURATE, and COMPLETE.

(Signature of Owner or Agent & Title)

(Date)

This Application will not be approved if all questions are not fully answered and the application properly signed. This application is a public record and subject to inspection by US EPA and State Authorities. This application is used by the City to identify "New Sources" of industrial wastewater discharged to the City's sewer system. This application is authorized under the City of Rialto Sewer Use Ordinances.
