FIELD ENGINEER

I acknowledge by signature and stamp below that I am the field engineer retained by the owner to ensure compliance with the grading and, or drainage plans as approved by the Temple City Building Division for the project identified above. To the best of my knowledge all work within my specific area of responsibility has been completed and all rough grades (earth and, or deck) are in accordance with the current Building Code, the soils report, and the grading and, or drainage plans as approved by the Temple City Building Division.

In addition, I have also specifically surveyed and, or otherwise verified all the following which are applicable to this project.

1. All rough top of wood deck elevations and, or concrete deck form work elevations are in accordance with the grading and, or drainage plans as approved by the Temple City Building Division.
2. All installed drainage devices are located at the elevations indicated on the grading and, or drainage plans as approved by the Temple City Building Division.
3. No contributory drainage has been blocked, temporarily or otherwise, by the existing grading and, or drainage work.
