

# MAYWOOD

SMALL CITY. WHERE OUR TRADITIONS MEET TOMORROW.

## 2022 California Code Cycle

### UNREASONABLE ACCESSIBILITY HARDSHIP FORM

The provisions of Section 11B-202.4 Exception 8 apply to existing buildings or facilities used as public buildings, public accommodations, commercial buildings or public housing. When these buildings or facilities undergo alterations, structural repairs, or additions, an accessible path of travel must be provided to the specific area of construction.

When the adjusted construction cost<sup>1</sup> of **alterations, structural repairs, or additions to existing buildings and facilities** within three years of the original alteration exceeds a valuation threshold of \$200,399.00, the cost of compliance with Section 11 B-202.4 of the 2022 California Building Code shall be a minimum of 20% of the adjusted construction cost of alterations, structural repairs or additions.

In choosing which accessible elements to provide, priority should be given to those elements that will provide the greatest access in the following order:

1. An accessible entrance.
2. An accessible route to the area of alteration, structural repair, or addition (see definition of accessible route Section 11B-202 & 11B-206.2.1 for more information on accessible routes and site arrival points).
3. At least one accessible restroom for each sex serving the area of alteration, structural repair or addition.
4. Accessible telephones, if provided, serve the area of alteration, structural repair, or addition.
5. Accessible drinking fountains, if provided, serving the area of alteration, structural repair, or addition; and
6. When possible, additional accessible elements such as additional parking, storage, signs and alarms.

Please complete the attached worksheet and prepare a site and floor plan of the existing and proposed accessibility improvements along the accessible route to the area of alteration that shall be submitted to the Building Division in duplicate, prior to completing your plan review. One copy of the approval or denial of the unreasonable hardship request will be returned to the applicant.

Please note that this request for hardship is subject to approval by the Building Official.

**Additionally, barrier removal is an ongoing obligation for ADA and this application does not exempt the applicant of any obligations to remove barriers in a reasonable time frame and by signing this report you understand that this 20% is for this addition/alteration alone.**

| New entrance landing, new accessible fixtures for the restrooms, properly mark and identify the accessible parking area, and 27 cubic yards of concrete (289 feet of sidewalk)                                                                                                       |                                                                                                                                                               |                                                                                                |                                                                |
| Hardship Request: 345 lineal feet of exterior sidewalk that exceeds 2.08% cross slope which is 3.4% - 3.8%. Without this request approval the project will not be able to happen due to lack of finances. Please see attached implementation plan and my justification for approval. |                                                                                                                                                               |                                                                                                |                                                                |

\*If an area has been altered without providing an accessible path of travel to that area, and subsequent alterations of that area or a different area on the same path of travel are undertaken within three years of the original alteration, the total cost of alterations to the areas on that path of travel during the preceding three-year period shall be considered in determining whether the cost of making that path of travel accessible is disproportionate.
