BUILDING OWNER OR AUTHORIZED AGENT

Expiration of Permit: Per RMC 15.08 Time limitation of application. An application for a permit for any proposed work shall be deemed to have been abandoned 365 days after the date of filing unless such application has been pursued in good faith or a permit has been issued; except that the building official is authorized to grant one or more extensions of time for additional periods not exceeding 365 days each. The extension shall be requested in writing and justifiable cause demonstrated.

I hereby certify that I have read and examined this application and know the same to be true and correct, and I am authorized to apply for this permit.

Print Name: _____ Date: _____

Signature: _____

Applies to permit applications submitted on or after May 1, 2025

Building Permits: Waste Reporting Requirements

Reporting Site

Waste from construction projects must be reported on our online platform. See our [reporting guide](#).

Waste Plan

Once your building permit is approved, set up the project on our [online waste tracking platform](#). It will walk you through creating a waste plan.

The project's waste plan will identify:

- how much waste you expect to generate,
- what materials you plan to dispose or recycle,
- and where you plan to take construction waste.

redmond.wastetracking.com

Waste Reporting

Throughout construction, report waste and upload waste tickets on our [online platform](#).

There is no requirement for recycling or salvage. Construction debris must be taken to designated facilities ([see list](#)).

Waste reporting must be completed before the permit can receive final inspection approval and a Certificate of Occupancy can be issued.
