

SIGN PERMIT SIGNATURE PAGE

Development Services-Inspections
Phone: 254-750-5612
Email: permits@wacotx.gov

I hereby certify that the information included in this application is true to the best of my knowledge and I agree with all of the items listed below.

1. All signs must be installed in accordance with Chapter 28-1042 of the sign ordinance.
2. The property owner's signature must be provided.
3. All electrical sign fixtures must be listed with an approved testing agency. The sign fixture must have the manufacturer's label attached with the approved testing agency's listing number.
4. A plat will be required for all detached signs.
5. A scaled site plan for each sign and drawings of the lot indicating the location of the proposed signage.
6. An overall plan showing the location and size of existing signage in relation to new signs.
7. An elevation plan for building and/or canopy signs must include height and length dimensions of the building or lease space.
8. For detached signs that are 35 feet or higher, drawings with a professional engineer's seal must be provided with this application.
9. An inspection must be scheduled for the day of installation and coordinated with the inspector.

NOTE: After the sign's installation is complete, a final inspection of each sign will be made based on the information provided on this form. Signs that are not installed to the specifications provided herein are subject to enforcement actions by the Development Services Department, up to and including the sign's removal.
