CONSTRUCTION AND DEMOLITION RECYCLING REPORT FORM

Many of the materials generated from your project can be recycled. According to the City of La Mesa, Ordinance No.14.27, you are required to recycle or reuse *Designated Recyclables* from your project, which includes but are not limited to dirt, concrete, asphalt, clean wood, etc. To assist in this effort, visit our website for information on where to recycle construction debris. If you have questions about the recycling requirement or completing this form, please contact EDCO Disposal at (619) 287-7555, a certified C&D recycler, or the La Mesa Building Division at (619) 667-1176. **Please note that you must follow these guidelines in order to comply with this ordinance. If your project meets the 75% Diversion Rate, you will be eligible to receive a REFUND of your security deposit at the completion of the project.**

Important Information Regarding Your SECURITY DEPOSIT REFUND

Part 1 - Before Project Begins

- Submit the required security deposit. Refer to the City's "Construction & Demolition Recycling and Reuse" handout for deposit rates.
- Complete Part 1 of this form and identify debris that will be generated from demolition, construction, and/or renovation on the project jobsite.

Part 2 - During and After Project

- **Save ALL** tonnage receipts and/or documents from disposal site (recycling centers and landfills) where materials were taken. Final review will not be conducted until documentation has been submitted to the City and approved.
- **Before final inspection** complete Part 2 of this form and submit receipts (original or photocopies) of your documentation verifying that all Designated Recyclables have been reused or diverted for beneficial reuse to recycling/processing facilities.
