

PIPELINE FRANCHISE APPLICATION

November 30, 2011

Information Requirements

In compliance with Title 11, Chapters 1 and 4 of the Redondo Beach Municipal Code, the following information is to be submitted at the time of application along with the fees specified in Resolution No. CC-0905-187. Please attach a signed copy of this form along with your responses. Please number each response to correspond to the questions listed below.

General Information

1. Name, address, phone, email and fax numbers of the applicant.
2. Name, address, phone, email and fax numbers of the agent/contact person.
3. The purpose for which the franchise is desired.
4. Any limitations as to time, place or type of service proposed by the applicant.
5. Explain the authority of the applicant to excavate, use or otherwise occupy the rights-of-way.
6. Is the applicant a Public Utility in California? If yes, include evidence of public utility status.
7. In an attachment hereto, identify any and all direct and indirect affiliates of applicant.
8. Will the applicant use the pipeline facilities, or related telecommunications facilities, requested herein to carry materials, products or information for an affiliated company, another certificated company, or another company? If yes, explain the nature of the materials, products or information to be carried and identify the companies involved.
9. Will the applicant sell or lease pipeline or telecommunications capacity, conduit, fiber or other facilities to any other person or entity? If yes, please explain the nature of the use by other persons or entities including materials, products, volumes transported. With respect to telecommunications state whether such persons or entities are a LEC, CLEC, CAP, OVS operator, or cable operator and identify all such persons or entities.
10. If the applicant intends to provide services to persons, residences, businesses, or others within the City, please explain the nature of the services and provide a general description of the intended customers.
11. Will the facilities proposed to be installed or used by the applicant be used by the applicant or any other person or entity for any service **not** specifically authorized by applicant's CPUC certificate? If yes, please provide a full explanation of the services to be carried, the companies involved and the intended customers.

12. List all pending applications and permits issued by the City to applicant (or a related company) which relate directly or indirectly to this application. Also list all pending applications or decisions applied for or granted by other State and Federal agencies which relate directly or indirectly to this application. Include application/permit number, date filed, date issued.
13. Attach an appropriate scale map to show the route that the pipeline infrastructure takes or will take through the City. Using colors and a clear legend to show the following: (1) the infrastructure that is proposed in the application, (2) above ground/overhead plant that will be installed, even if it is not subject to the application, (3) existing infrastructure owned by applicant (or its affiliate) to which the new plant will be attached or integrated, (4) to the extent known at the time of filing, the entire infrastructure that is planned for the City. If the map scale is too small to show the information clearly, the applicant will be required to supply a larger map.
14. Describe the existing pipelines and conduit and any proposed pipelines and conduit that exist or will be installed. Include the volume, pressure and type of substances being transported by the pipeline, the size, date of construction, material specifications of the pipeline, maximum pipeline pressure ratings, date of most recent inspection, inspection results, date of most recent certification, copy of certification, detailed description of materials, detailed description of transported, maximum daily volumes, and certifications from all agencies responsible for permitting and operation of the pipeline facility, as applicable, and evidence of public utility status, if any and the Pipeline Emergency Plan specified in Section 11-4.16 of Redondo Beach Municipal Code. For telecommunications include size, number of conduits, nature of inner duct (if any), material (HDPE, PVC, etc.), manufacturer.

Provide the following information on any conduit that will be installed as part of the construction proposed in this application.

- Will applicant use directional boring to install conduit?
- Will applicant direct bury (trench) the conduit?
- Will conduit be installed for other parties during this construction?
- Is applicant willing to lease conduit to other parties?
- Is applicant going to participate in joint trench?
- Is applicant willing to participate in joint trench?

15. State (a) the internal diameter of each existing or contemplated pipeline; (b) the length of each pipeline within the boundaries of the City. If the pipeline route includes rights of way, easements, licenses or similar rights within the boundaries of the City, but which are not located in city streets or other City-owned property and as to which the applicant believes are exempt from Title 11, Chapters 1 and 4 of the Redondo Beach Municipal Code, please provide (i) a colored map indicating the pipeline segments that are not located in city streets or other City-

owned property; and (ii) a title report and supporting title documentation demonstrating that the pipeline segment is not located in a city street or other City-owned property.

16. Describe pull boxes, splice boxes and other vaults and pedestals to be installed by applicant (include size, model number, and manufacturer).
17. Describe the type and amount of cable (fiber-optic, twisted-pair copper, coaxial, etc.) that will be installed by applicant as part of, or as a result of the construction proposed in this application.

Impact on City Resources and Quality of Life

18. Describe in detail the local benefits of permitting the proposed use of the right of way. Include a discussion of direct benefits, such as, compensation in the form of franchise fees, utility user's tax, secured and unsecured property tax and the indirect benefits, such as, improved access for local residents or other aesthetic improvements.
19. In order to minimize the impact of applicant's proposed construction, please indicate whether the applicant *has* checked pending applications and recently granted permits in the City to determine whether the opportunity to construct using joint trench, or the opportunity to share facilities is available? Checked street resurfacing schedules? Proposed to use directional boring in areas where it would minimize the impact on traffic, residents and businesses? If no directional boring is proposed, please explain why.
