ADMINISTRATIVE POLICY

TO: Department of Community Planning Staff

FROM: Kellen D. Spillman
Community Planning Director

DATE: July 5, 2023

SUBJECT: Zoning Lot Policy

NUMBER: CP Policy 5.03

Statement

This zoning lot policy updates and continues the previous policy as adopted November 17, 2005. An update of this policy is necessary due to the Assembly approving a fee and application process for these actions starting FY23.

Goal

To make slight revisions to the 2005 Zoning Lot Policy and continue a consistent and predictable administration of zoning lots that are trackable and recorded with each parcel.

Rationale

FNSBC 18 has included a provision for "zoning lot(s)" since the original adoption in 1988. A specific policy is necessary to ensure that when a zoning lot action is initiated it is treated consistently and that this action is trackable for future zoning, subdivision, or real estate actions. Below is the definition of a "zoning lot":

"Lot, zoning" means a parcel or contiguous parcels of land designated by its owner or developer as a tract to be used, developed or built upon as a unit under single ownership or control. A "zoning lot" may or may not coincide with a "lot."¹

¹ FNSBC18.04.010

General Policy

It is the policy of the FNSB Community Planning Department, as permitted in FNSBC 18, to allow an owner or developer to create a "zoning lot" and to combine two or more parcels together for planning and zoning purposes. The zoning lot process would allow the development of two or more parcels without requiring an owner or development to initiate a Title 17 replat process to dissolve parcel lines. The platting process need not be initiated at the time that a zoning lot is created.

Specific Policy

A property owner or representative of a property owner must complete the Community Planning application, zoning lot affidavit, and pay the applicable fee to initiate a zoning lot action.

To qualify for this action all parcels must be:

- 1) Contiguous parcels
- 2) Under common ownership
- 3) Within the same zoning district
- 4) Joining the parcels together must be necessary to comply with a planning and zoning regulation

The Department will review each application for Title 18 standards and sign each affidavit prior to recording with the District Recorder's Office. A recorded affidavit without Community Planning approval is invalid.

The applicant for a zoning action that involves the creation of a zoning lot must execute an affidavit signed by all owners of interest in the property that states that the proposed zoning lot:

1. Does not constitute a subdivision as defined by FNSB Title 17.
2. Comprises a single lot for only planning and zoning purposes.

The Community Planning Department will record this affidavit in the District Recorder's Office and pay the fee. After recording, a zoning permit will be issued to the applicant with the recorded affidavit attached. This will document in the FNSB permitting system the existence of a zoning lot affidavit.

If the applicant and the Department determines that the zoning lot is no longer required, the applicant/owner shall file an application and pay the necessary fee with the Department to record a second affidavit that confirms, for title clearance purposes, that the zoning lot affidavit is no longer in effect.
