Permit: _____

The legalization of an ADU that may include work completed without a permit or inspections, cannot completely guarantee code compliance. In-accessible building elements such as concrete steel, framing, electrical, plumbing, and mechanical systems as well as product or workmanship compromises may not be visible or inspectable. It is the intent of the State of California and the City of Campbell to make the building safe for the residents without destructive testing or inspection. The owner of the property takes responsibility for the integrity and safety of this building and the occupants within.
