

APPLICATION FOR EXCAVATIONS AND FILL

1 Asharoken Avenue, Northport, NY 11768

Office: 631-261-7098 Email: MGlennon@asharokenny.org

Building Inspector Doug Adil 631-935-5501 Email: DougAdil1@gmail.com

NO WORK ON WEEKENDS- WORK HOURS: MONDAY – FRIDAY 8:00AM -5:00PM

Under Chapter 64 no earth, stone, sand, mud, asphalt, or other material, including materials for bulkheads or revetments shall be moved, deposited, dredged, removed, or excavated from or on any land, wetland or underwater land within the village unless the application has been reviewed and recommended by the Conservation Board and sent to the Board of Trustees for issuance of a permit.

Applicant Name: _____

Location of property _____

No permit shall be required under the following cases:

1. _____ Less than (1) cubic yard of material to be moved or deposited.
2. _____ Less than (10) cubic yard of material to be moved or deposited if the work is done at least (20) feet above sea level or at least (100) feet from the mean high-water mark of all neighboring water and at least (20) feet from any wetland.
3. _____ For the excavation of a foundation of a building or for the filling in of land for which a building permit has been issued and the excavation is included on the plans.
Building Permit #_____. The purpose of the importation of fill _____

How many cubic yards of fill will be imported to the premises _____

Source of the Fill _____

Has the importation of fill or excavation of soil been identified on the associated NYSDEC permit for this project _____?

4. _____ For the repair or improvement of an existing or new driveway.

All other cases this application must include the following.

- a. A complete description of the proposed work.
- b. The location and dimensions of the affected premises.
- c. The present topography of the affected and neighboring premises and the topography which will exist after the proposed work has been completed.
- d. Distances of the proposed work from each property line, buildings, and all adjoining owners, from mean high-water mark of all neighboring bodies of water, any wetland, public streets as shown on a topographical map and/or survey prepared by a licensed surveyor.
- e. The total cubic yards of material to be moved.
- f. The effect of the proposed work on the environment, including changes in stormwater runoff, (including direction of runoff that may affect adjacent properties or nearby wetlands and shores).
- g. Changed grade adjacent to existing trees.
- h. Visual impact of significantly elevated properties for the purpose of flood protection.
- i. The method and length of time required for the performance of such work.
- j. Proof of Department of Environmental Conservation and other required approvals.
- k. Short Environmental Assessment Form -must be submitted. See attached.

The application in proper form will be delivered to the Conservation of the Environment Board for their review and recommendations. They will submit their recommendations to the Board of Trustees at the next meeting. If further information is needed the Conservation Board chair will request it from the applicant directly.

I represent that to the best of my knowledge; that this information is accurate, and fill does not contain material other than clean fill.

Signature: _____

Date: _____

IMPORTANT: YOU MUST FILL OUT PART 1 OF THE SHORT ENVIRONMENTAL ASSESSMENT FORM (SEAF) 617.20.

617.20
Appendix B
Short Environmental Assessment Form

Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information			
Name of Action or Project:			
Project Location (describe, and attach a location map):			
Brief Description of Proposed Action:			
Name of Applicant or Sponsor:		Telephone:	
		E-Mail:	
Address:			
City/PO:		State:	Zip Code:
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation?			NO
If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			YES
2. Does the proposed action require a permit, approval or funding from any other governmental Agency?			NO
If Yes, list agency(s) name and permit or approval:			YES
3.a. Total acreage of the site of the proposed action? _____ acres			
b. Total acreage to be physically disturbed? _____ acres			
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? _____ acres			
4. Check all land uses that occur on, adjoining and near the proposed action.			
☐ Urban ☐ Rural (non-agriculture) ☐ Industrial ☐ Commercial ☐ Residential (suburban) ☐ Forest ☐ Agriculture ☐ Aquatic ☐ Other (specify): _____ ☐ Parkland			

5. Is the proposed action, a. A permitted use under the zoning regulations?	NO	YES	N/A
b. Consistent with the adopted comprehensive plan?			
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	NO	YES	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If Yes, identify: _____	NO	YES	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?	NO	YES	
b. Are public transportation service(s) available at or near the site of the proposed action?			
c. Are any pedestrian accommodations or bicycle routes available on or near site of the proposed action?			
9. Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies: _____	NO	YES	
10. Will the proposed action connect to an existing public/private water supply? [If Yes, does the existing system have capacity to provide service? ☐ NO ☐ YES] If No, describe method for providing potable water: _____	NO	YES	
11. Will the proposed action connect to existing wastewater utilities? [If Yes, does the existing system have capacity to provide service? ☐ NO ☐ YES] If No, describe method for providing wastewater treatment: _____	NO	YES	
12. a. Does the site contain a structure that is listed on either the State or National Register of Historic Places?	NO	YES	
b. Is the proposed action located in an archeological sensitive area?			
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?	NO	YES	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody? If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____			
14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply: ☐ Shoreline ☐ Forest ☐ Agricultural/grasslands ☐ Early mid-successional ☐ Wetland ☐ Urban ☐ Suburban			
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?	NO	YES	
16. Is the project site located in the 100 year flood plain?	NO	YES	
17. Will the proposed action create storm water discharge, either from point or non-point sources? If Yes, a. Will storm water discharges flow to adjacent properties? ☐ NO ☐ YES b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)? If Yes, briefly describe: _____	NO	YES	

18. Does the proposed action include construction or other activities that result in the impoundment of water or other liquids (e.g. retention pond, waste lagoon, dam)? If Yes, explain purpose and size: _____	NO	YES
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? If Yes, describe: _____	NO	YES
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste? If Yes, describe: _____	NO	YES
I AFFIRM THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE Applicant/sponsor name: _____ Date: _____ Signature: _____		

Part 2 - Impact Assessment. The Lead Agency is responsible for the completion of Part 2. Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?		
2. Will the proposed action result in a change in the use or intensity of use of land?		
3. Will the proposed action impair the character or quality of the existing community?		
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?		
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?		
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?		
7. Will the proposed action impact existing: a. public / private water supplies?		
b. public / private wastewater treatment utilities?		
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?		

	No, or small impact may occur	Moderate to large impact may occur
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?		
11. Will the proposed action create a hazard to environmental resources or human health?		

Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

- ☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- ☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
