

WATER AND SEWER TAP APPLICATION

To request a water and or sewer tap, complete this form, and return to the Development Services Department. The Utility Supervisor will contact you within five working days to discuss the process of obtaining the tap(s) and the associated fees. After payment has been made to Customer Service, a work-order will be generated for the installation of the tap(s).

This form is to be used for new services only. Requests to transfer service or open a new account where an existing water meter and sewer tap are in place is handled by Customer Service.
