

Affidavit of Final Cost of Construction and Application for Certificate of Occupancy

(Form # Eng-86-17-A, Revised 04 2026)

Instructions: An application for a Certificate of Occupancy (C.O.) must be submitted under § 86-18 of the Village Code upon completion of the building permit process including all construction and inspections. Failure to obtain a C.O. for the permitted work is a violation of Village Law. Complete the information below. The form must be notarized. Submit application with fee as indicated in the Village Fee Schedule. Before a C.O. is issued, a final inspection must be completed and an as-built survey and electrical certificate, if applicable, must be submitted.

Where work has been performed that required the issuance of a building permit, the building shall not continue to be occupied or used for more than 30 days after the completion of the work unless the Village Engineer issued a certificate of occupancy. No change shall be made in the use or type of occupancy of an existing building unless a certificate of occupancy for the new use is issued by the Village Engineer

The actual construction cost shall include the cost of all services, labor, materials and use of equipment, scaffolding and other appliances entering into and necessary for the prosecution of the work; except that the cost of grading, landscaping and decorating or other work intended only for embellishment shall not be deemed part of the cost. If the final cost is less than the estimate cost stated in the Application for Building Permit, no portion of the fee paid upon filing of the application will be refunded.

Village Code

§ 86-18. Certificate of occupancy required.

- A. No building hereafter erected shall be used or occupied in whole or in part until a certificate of occupancy shall have been issued by the Village Engineer.
- B. No building hereafter enlarged, extended or altered or upon which work has been performed which required the issuance of a building permit shall continue to be occupied or used for more than 30 days after the completion of the alteration or work unless a certificate of occupancy shall have been issued by the Village Engineer.
- C. No change shall be made in the use or type of occupancy of an existing building unless a certificate of occupancy shall have been issued by the Village Engineer.

§ 86-19. Inspections; issuance of certificates; temporary certificates.

- A. Inspection prior to issuance.
 - (1) Before issuing a certificate of occupancy, the Village Engineer shall examine or cause to be examined all buildings, structures and sites for which an application has been filed for a building permit to construct, enlarge, alter, repair, remove, demolish or change the use or occupancy, and he may conduct such inspections as he deems appropriate from time to time during and upon completion of the work for which a building permit has been issued.
 - (2) Where applicable, the following documents prepared in accordance with the provisions of the Uniform Code by such person or persons as may be designated by or otherwise acceptable to the Village Engineer, at the expense of the applicant for the certificate of occupancy, shall be provided to the Village Engineer prior to the issuance of the certificate of occupancy:
 - (a) A written statement of structural observations and/or a final report of special inspections;
 - (b) Flood hazard certifications;
 - (c) A written statement of the results of tests performed to show compliance with the Energy Code; and
 - (d) Where applicable, the affixation of the appropriate seals, insignias, and manufacturer's data plates as required for factory manufactured buildings and/or manufactured homes.
 - (3) There shall be maintained in the Engineering Department a record of all such examinations and inspections, together with a record of findings of violations of the law.
 - B. Issuance of certificate of occupancy
 - (1) When, after final inspection, it is found that the proposed work has been completed in accordance with the Uniform Code, Energy Code, and all other applicable buildings laws, ordinances and regulations and also in accordance with the application, plans and specifications filed in connection with the issuance of the building permit, the Village Engineer shall issue a certificate of occupancy upon the form provided by him. If it is found that the proposed work has not been properly completed, the Village Engineer shall refuse to issue a certificate of occupancy and shall order the work completed in conformity with the building permit and in conformity with the applicable building regulations as set forth by the Uniform Code and Energy Code.
 - (2) The certificate of occupancy shall certify that the work has been completed and that the proposed use and occupancy is in conformity with the provisions of the applicable building laws, ordinances and regulations and contain the following information:
 - (a) The building permit number, if any;
 - (b) The date of issuance of the building permit, if any;
 - (c) The name (if any), address and Tax Map number of the property;
 - (d) If the certificate of occupancy is not applicable to an entire structure, a description of that portion of the structure for which the certificate of occupancy is issued;
 - (e) The use and occupancy classification of the structure;
 - (f) The type of construction of the structure;
 - (g) The occupant load of the assembly areas of the structure, if any;
 - (h) Any special conditions imposed in connection with the issuance of the building permit; and
 - (i) The signature of the Village Engineer issuing the certificate of occupancy and the date of issuance.
 - (3) Any change in the nature of use of any parcel of property or extension or change in the present area of use or change in the access from the parcel of property to a street or streets for which a change of use or access permit is required under § 86-10H above or the continuance of any such change of use or access effected after May 18, 1964, shall require a new certificate of occupancy, which shall be granted only if the conditions of the foregoing Subsection A(1) and (2) are met, including the obtaining of the use or access permit in question.
 - (4) A fee in the amount set by resolution of the Board of Trustees shall be paid at the time of applying for each certificate of occupancy or temporary certificate of occupancy.
 - C. Temporary certificate of occupancy. Upon request, the Village Engineer may issue a temporary certificate of occupancy for a building or structure or part thereof before the entire work covered by the building permit shall have been completed, provided that 1) such portion or portions as have been completed may be occupied safely without endangering life or the public welfare; 2) that any required fire and life safety components, such as fire protection equipment and fire, smoke, carbon monoxide, and heat detectors and alarms are installed and operational; and 3) that all required means of egress from the structure have been provided. The Village Engineer may include in a temporary certificate of occupancy such terms and conditions as he or she deems necessary or appropriate to ensure the health and safety of the persons occupying and using the building or structure and/or performing further construction work in the building or structure. The temporary certificate of occupancy shall contain all information as prescribed in Subsection B(2) of this section. A temporary certificate of occupancy shall be effective for a period of time, not to exceed six months, which shall be determined by the Village Engineer and specified in the temporary certificate of occupancy. During the specified period of effectiveness of the temporary certificate of occupancy, the permit holder shall undertake to bring the building or structure into full compliance with all applicable provisions of the Uniform Code, Energy Code, and all other applicable building laws, regulations and ordinances.
 - D. If the Village Engineer determines that a certificate of occupancy or a temporary certificate of occupancy was issued in error or on the basis of incorrect information, and if the relevant deficiencies are not corrected to the satisfaction of the Village Engineer within such period of time as shall be specified by the Village Engineer, the Village Engineer shall revoke or suspend such certificate.
- Note: Starting January 1, 2015, any application for a building permit where truss type, pre-engineered wood or timber construction is being utilized, must include this information and no certificate of occupancy will be issued without an approved sticker affixed to any electric box or exterior wall adjacent to the electric box. These stickers/signs can be purchased on line through several web sites including: <https://www.mysafetysign.com>, <https://www.compliancesigns.com/>, <http://www.trussid.org>. A limited number of truss signs may be available at the Engineers office for a small fee.
