

City of League City Impervious Coverage Worksheet

Incomplete applications will not be accepted.

Indicate "NA" when an item does not pertain to your application.

PROJECT INFORMATION

Project Address: _____
Scope of Work : _____

IMPERVIOUS COVERAGE CALCULATION

	Existing (Sq. Ft.)	Proposed (Sq. Ft.)	Total (Sq. Ft.)
Structure(s) (i.e. house, garage, shed, carport)			
Paving (i.e. driveway, sidewalk, patio, pool deck)			
Other(s)			
Total			

Overall Lot Size (Sq. Ft.) : _____ Total Impervious Cover (Sq. Ft.): _____

Impervious Cover Percentage (%) _____ ((Total Impervious Cover / Overall Lot size) X 100)

- Impervious coverage includes all features within a property where water cannot infiltrate into the ground.
- Impervious surfaces include, but are not limited to, the footprint of any structure, sidewalks, driveways, patios, pool decks.
- The water surface of in-ground pools/hot tubs and spas is not counted as part of the maximum total impervious coverage.
- Lot sizes shall be provided from the recorded plat, sealed survey or county appraisal district.
- A copy of the survey of the property shall accompany this worksheet. Photographic copies are prohibited.
- Pool and all associated equipment shall be no less than 3 feet from any property line.
- Contact the Planning Department at 281-554-1080 for the maximum impervious coverage of an existing property.
